Students with one intent: advancement of their minds for the time, to become aware. Today only lasts for today and then is gone forever. Buildings which house students, teachers, machines, numbers and thoughts are new and not yet worn by time. These, as all things, will change as time passes, but for now — an unfinished newness that can't be bought. All is caught only momentarily.

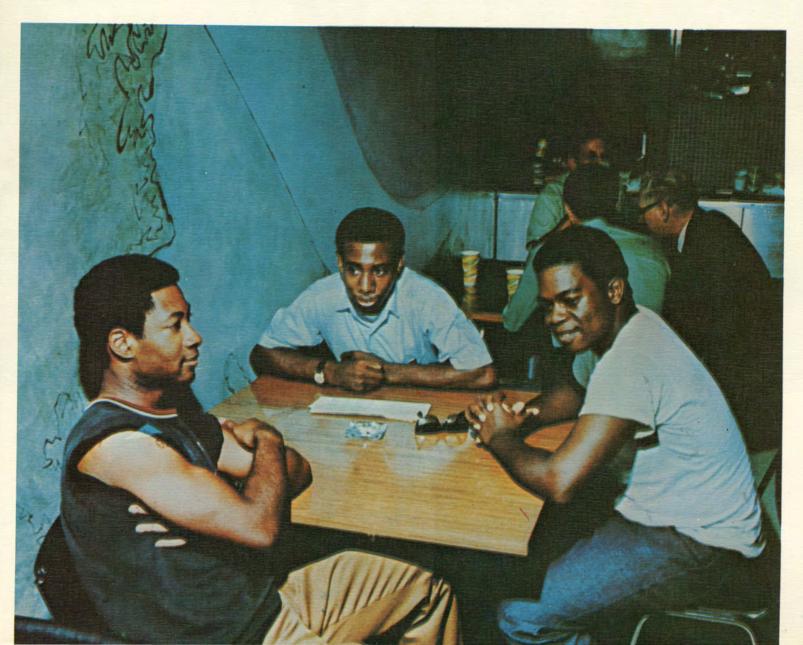

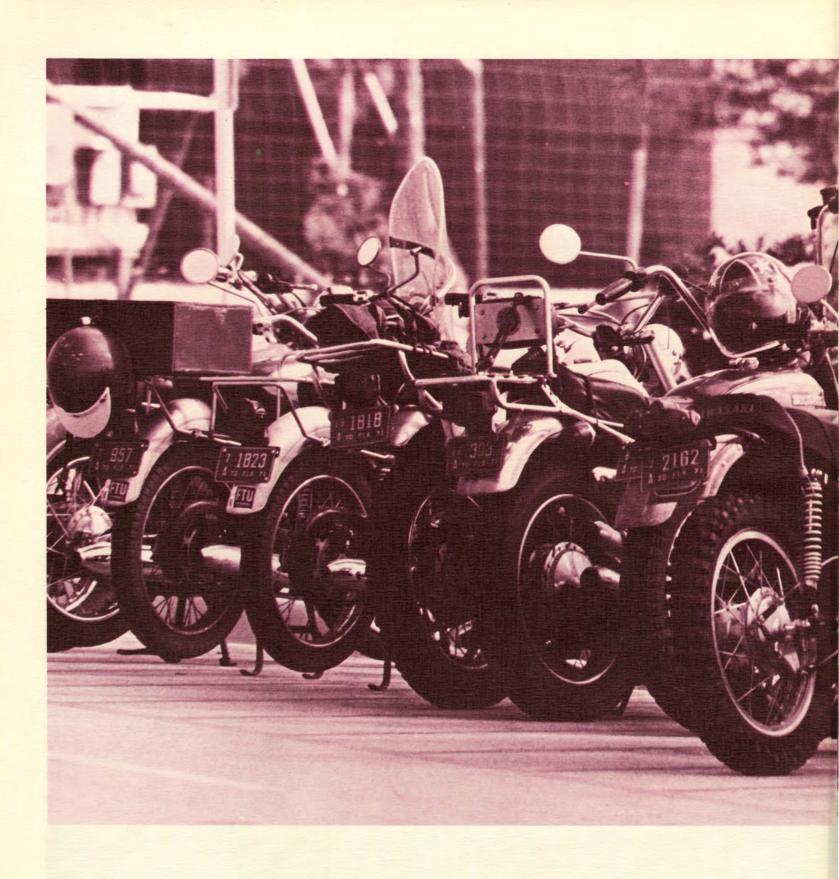

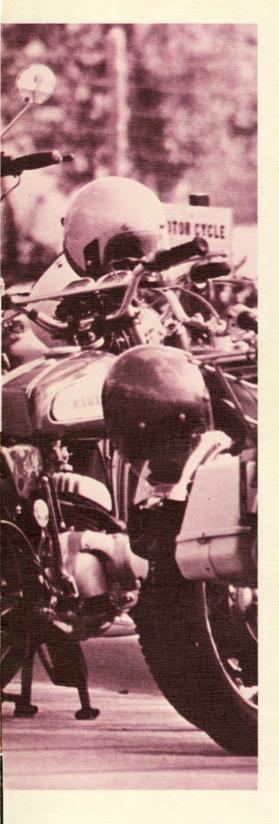

Hurry, wait, rush, come on, slow down . . . a never ending cycle of moving in and out, studying, relaxing, registration, orientation, going to classes, working, talking to professors, elections, campaigning, voting, dancing, loafing: all combine to form a year at FTU. Today's students are totally aware of their school, themselves and the world around them. Today's world is changing and as a part of life, a college must grow and expand to meet the needs of this changing world.

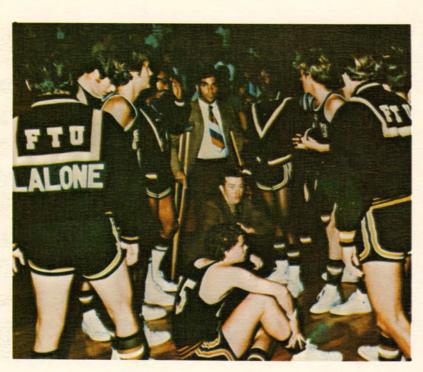

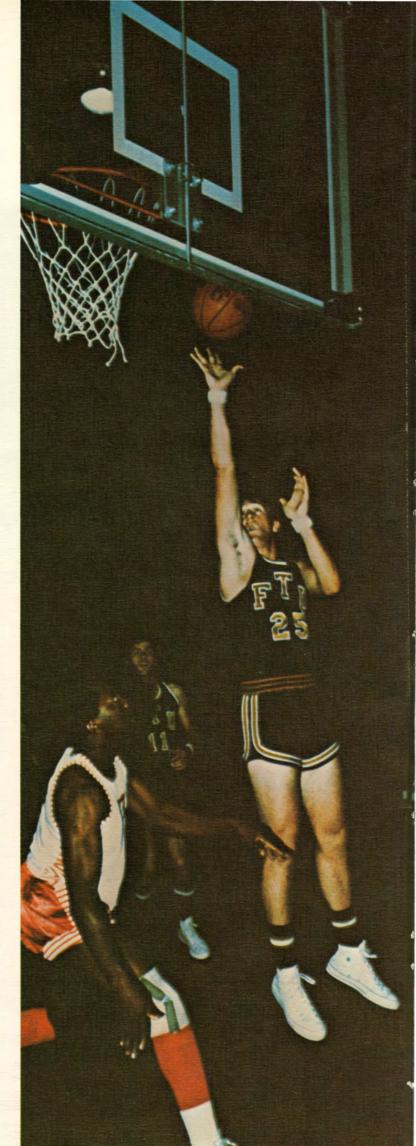

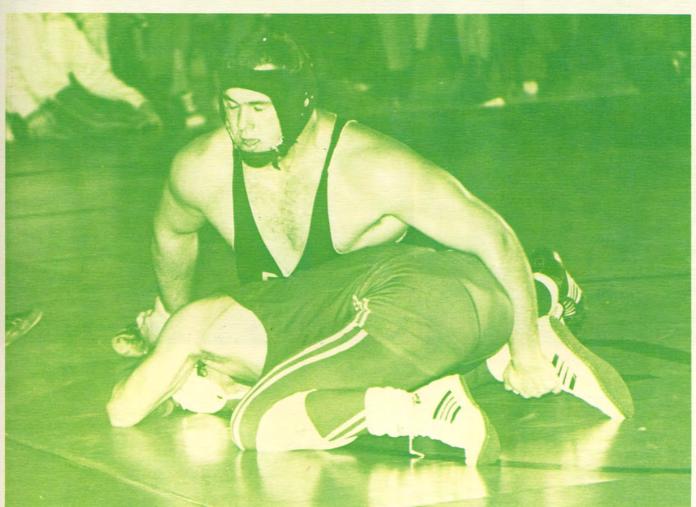

Five thousand students and paved parking for many less makes for problems. Solutions abound . . . as do consequences of these solutions. Tow trucks to get out of the sand, driving over mounds and in and out of ditches are common sights. With the addition of a few yellow lines appropriately spaced, students find a ready-built parking lot for their own mode of transportation.

"Jump ball, jump ball, get it, Tech, get it" and the roar goes up from the crowd. Sports help to bring an ever-changing fast world into a closed circuit life. The basketball court, the wrestling mat and the tennis courts only take into account that which is happening at that moment. It is a very now and aware thing. Yesterday's game match mean nothing - only the image that is presented to the audience, fans and referees count. Spirit plays a large part in tying together the school, a large turnout for the game, match, or meet helps the players as well as the school.

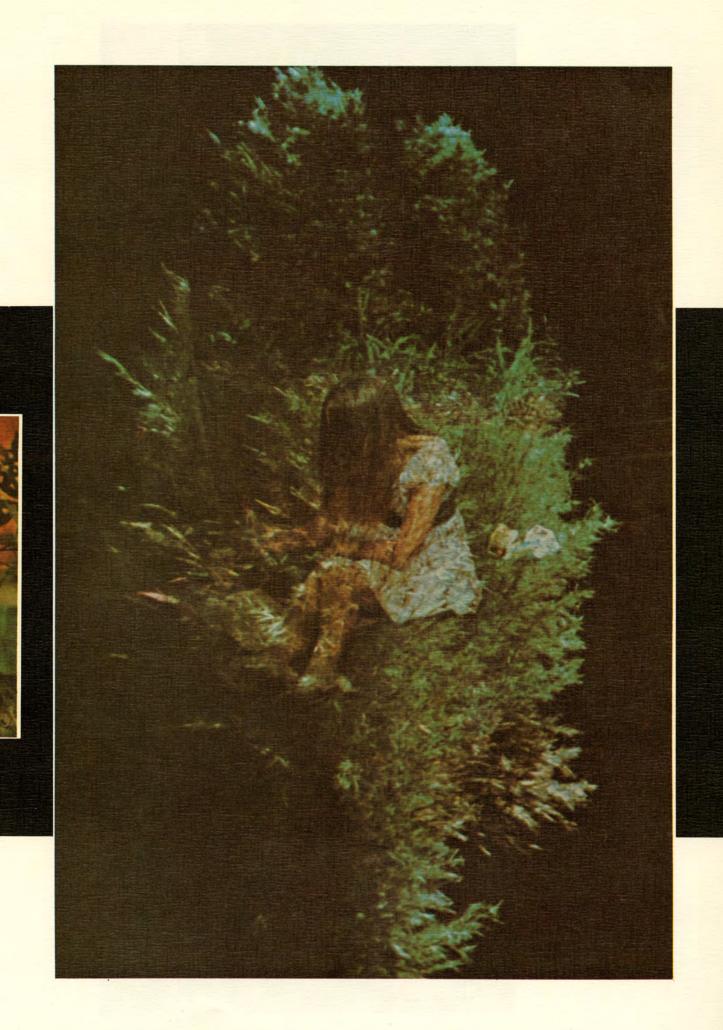

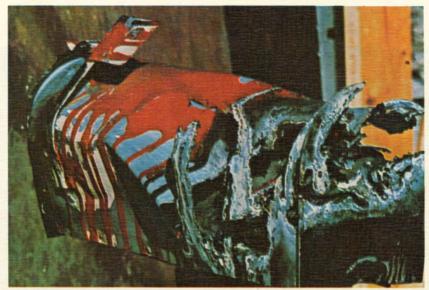

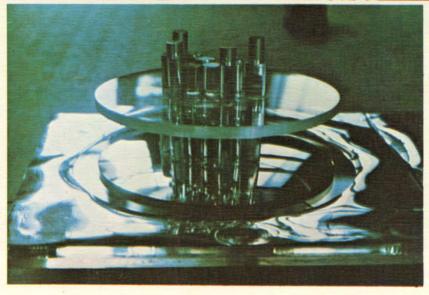

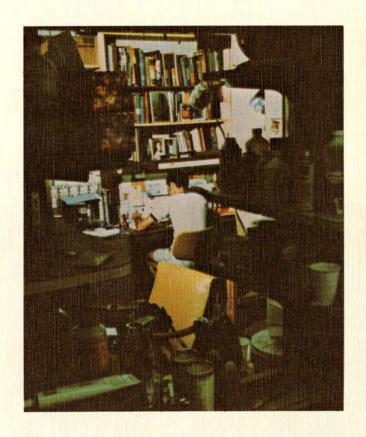

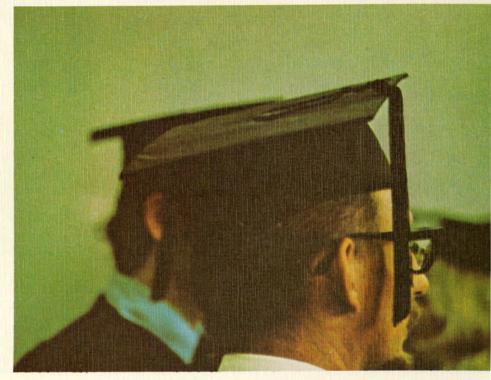

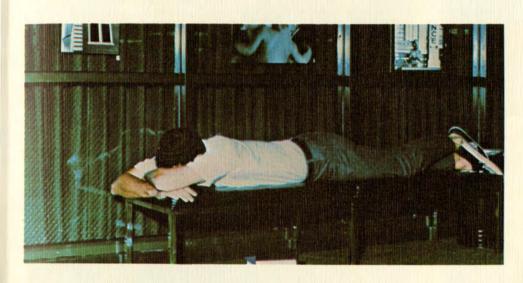

A speck of time is captured, molded and brought to life. An existence where none has been before is caught in time for all. A creation which will see that which is to be and hold it for the eyes of the waiting world. Music, sculpture, painting and drama all belong in a category of their own — art. Only in these can the emotions take on a new dimension and be expressed.

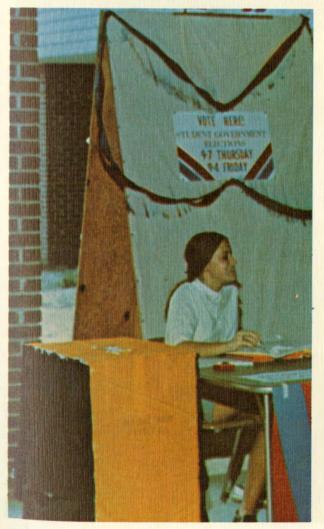

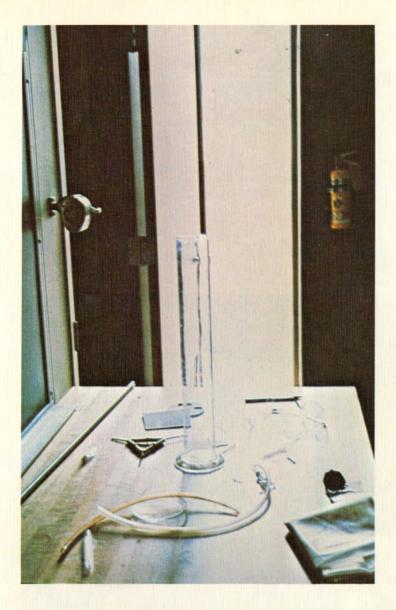

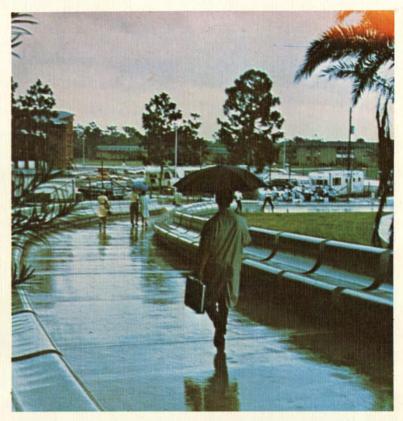

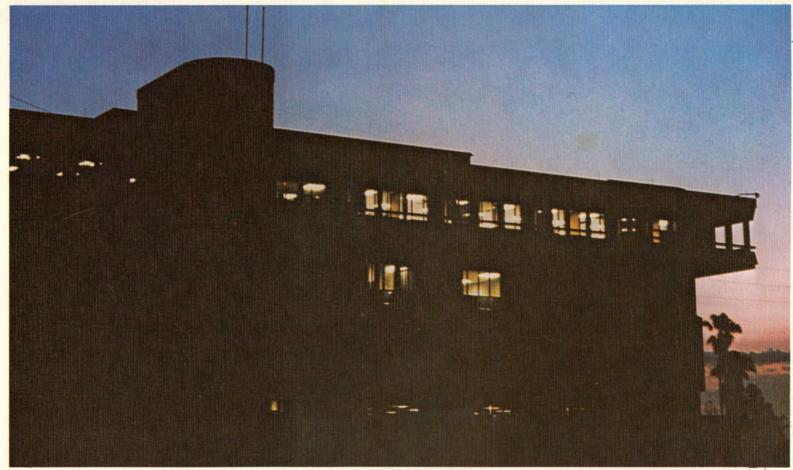

This is a world of becoming, Where hope and opportunity Lie linked in goals of now And dreams for the future. This is a world of unfolding, Where each pursues a path Of single goals And common aims To shape a better way For those to follow.

Night falls, the rain comes and all becomes restful but only momentarily for once again the world is alive and bright. A page is turned to a new and brighter tomorrow. But we can only see the tomorrow by living today and experiencing what is real and now.

Trial Flight of Our Generation

ORLANDO, FLORIDA (FTU)

The most important moment in a bird's brief life is the first attempt to make a solo flight. So it is with today's college student. We are here to prove ourselves on this, our solo flight. Some will succeed on their first try, many will fall again and again; but they keep trying, soon they will soar among the best.

Those who soar—they are the mainspring, the lifeblood of our universities. On them rest the hopes, the prayers, and the future of tomorrow's world.

Here at Florida Technological University, fledglings in life have a unique role in the development of their own being. They have the opportunity to actually lay the groundwork for the social aspects of one of the most diversified and vital environments in our society. Opportunities to experiment in forming new clubs and new social organizations, such as fraternities and sororities, abound in the fertile atmosphere of a new university. Here too, students work closely with faculty and staff in organizing a sound academic tradition.

The chronicle of the birth and growth of a new and valuable university is one to be remembered. Not so much for the campus, or the classes, or even the activities; but for the students—the fledglings—they make a university great.

Registration System Improves

Although much of the actual work is done by the registrar's office, registration is one of the student's biggest worries. At FTU, registration is swiftly becoming one of the most highly mechanized and efficient systems in this area. Many of the most often encountered problems have been met and accordingly dealt with by a "working committee" composed of students, faculty, and administrators. The suggestions and observations of this committee have resulted in lessening the frustration and difficulty students must contend with during registration.

Orientation Program Informs

Orientation serves to familiarize freshmen and transfer students with the campus, the academic curricula, staff, and faculty. This is the student's initial introduction to college life. Students have an opportunity to meet with their faculty advisors and work out not only the coming quarter's class schedule, but they also set up a flexible guideline for classes required for graduation.

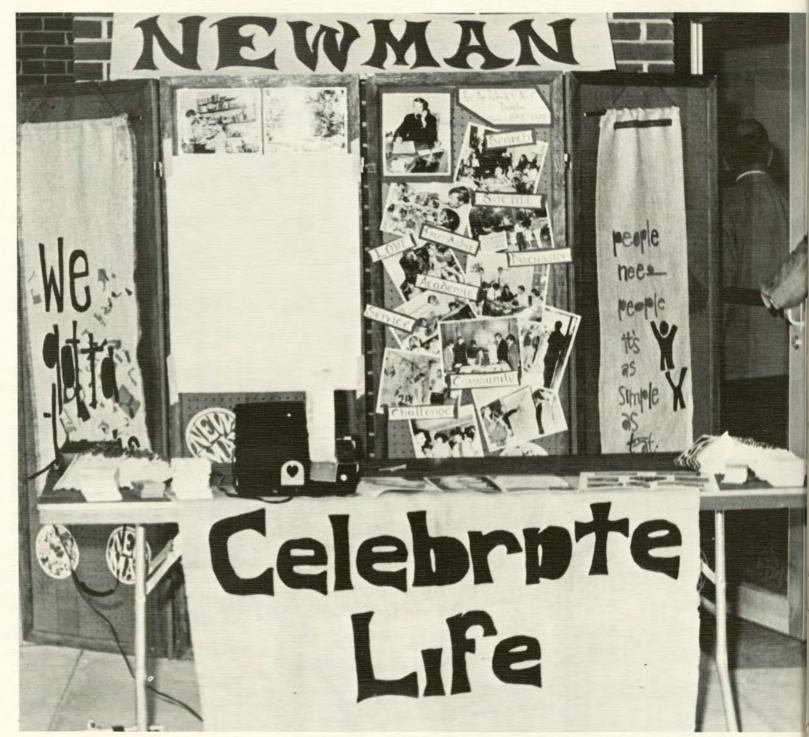

Clubs Urge Involvement

September 30 was designated as Activities Day. Displays were set up in the Village Center breezeway for the purpose of encouraging students to join the on-campus organizations.

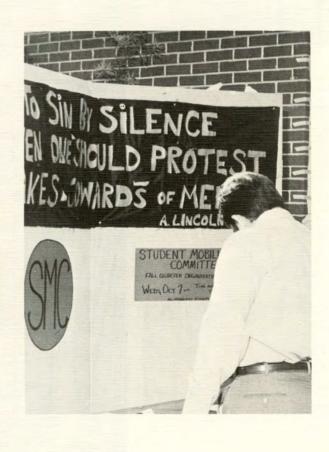

Fraternities, sororities and interest clubs were represented with various types of displays. The Village Center used this opportunity to inform students of the V. C. activities planned for the year. Political groups and religious organizations, such as the Newman Club, also got in on the action. PEGASUS submitted a display on "The Making of a Yearbook." But, the most outstanding display was a Piper Cherokee 140 plane, which was entered by Pegasus Pilots.

The Rush Is On

Everything from an old-fashioned social to a western get-together was held during sorority rush this year. After registration, each sorority held informal parties to acquaint itself with the rushees. Next in store were formal parties where the sisters made decisions on the rushees. Rush was climaxed by the bid invitation and pledging.

That Was the Knight That Won

After much debate and hours of consideration, the mascot selection committee narrowed the field from over eighty to ten entries: Argonauts, Barracudas, Centaurs, Comets, Conquistadors, Golden Hawks, Golden Paladins, Knights of Pegasus, Novas, and Scorpions. After being submitted to a vote of the student body, the mascot was formally introduced at the FTU-PAFB basketball game on December 4, by President Millican. The unveiling of the statue of the Knight of Pegasus was the highlight of half-time. Florida Tech will ever be personified as the Knights of Pegasus.

On Tour From Canada

Pumpkins, Goblins and Charlie Brown

"Every year, it's the same story — I wait and wait and you never come. I found out about Santa Claus, the Easter Bunny and even the Tooth Fairy. You CAN'T let me down now. I have to have something to believe in. I believe in you, Great Pumpkin."

I am one with them, and they are one with me.

They can make me happy, they can make me sad. They can lift my spirits and they can pull me down. But only higher, higher, higher on reality can I go — and only for the sake of the group, friends and the inevitable presence of — PEOPLE.

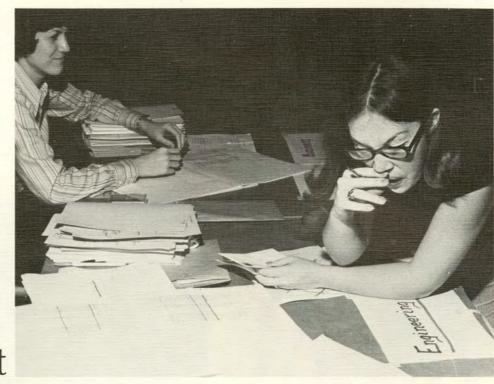

HASH PIPES MADE OF POTTERY DON'T LAST...

Just People

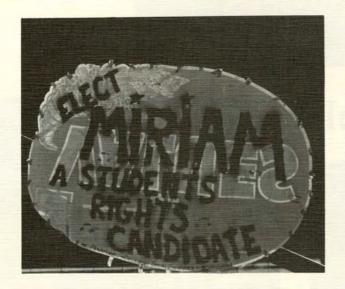

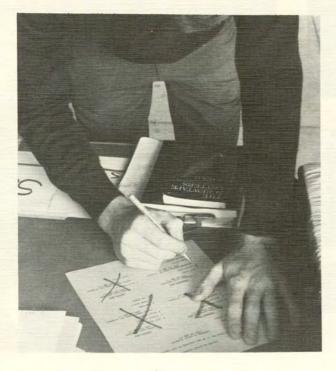

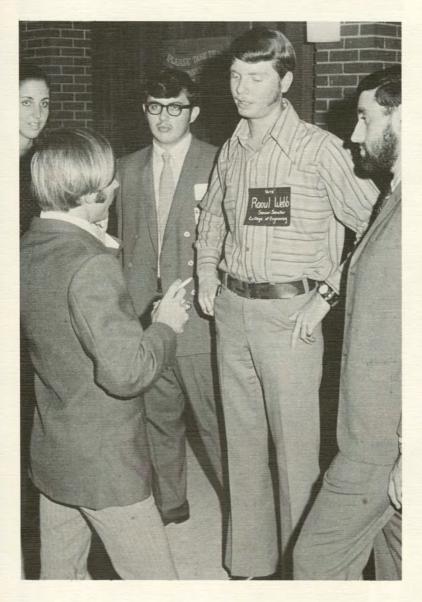

You've Got the Right — So Use It

Tech students vote during noon lunch break.

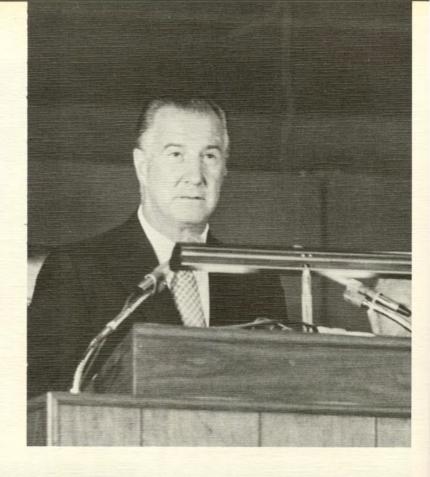

Student Government elections had more participation this year than ever before in both petitions of candidacy and voter turn out. As many of the rough edges of election procedures are being filed away, the interest in becoming involved in the affairs of the student body has risen. The voter was forced to know the platform of his candidate due to the large number of office seekers. The platforms ranged from better student-administration communication to student rights.

GOP Stumps Orlando

Vice President Spiro Agnew made an appearance in Orlando in October to lead a Republican rally at the Orlando Sports Stadium. Governor Claude Kirk and U.S. Representative Bill Cramer accompanied him to the Orlando area. While here, he addressed a near capacity crowd at the stadium, held a press conference and played golf at Bay Hill Country Club.

He Came; He Saw; He Conquered.

Arthur Blessitt, the minister of Sunset Strip, visited Orlando in October to preach to crowds of thousands at various locations around town. This included a special program geared to the college age at Lake Eola. Traveling with him were three ladies who added to his message with their singing.

College of Education

Dr. Calvin C. Miller

Dean of Education

The College of Education develops a firm background for students planning a teaching career in elementary, secondary or a comprehensive field of education.

The block system is utilized by the college to blend the theoretical study of educational techniques with practical applications. Through these practical aspects, the student develops an invaluable insight and understanding of classroom atmosphere.

The College of Education thus plays a necessary role in the preparation of qualified teachers to meet the evergrowing demands of the school system for more and bet-

ter equipped instructors.

Coordinator and Associate Professor

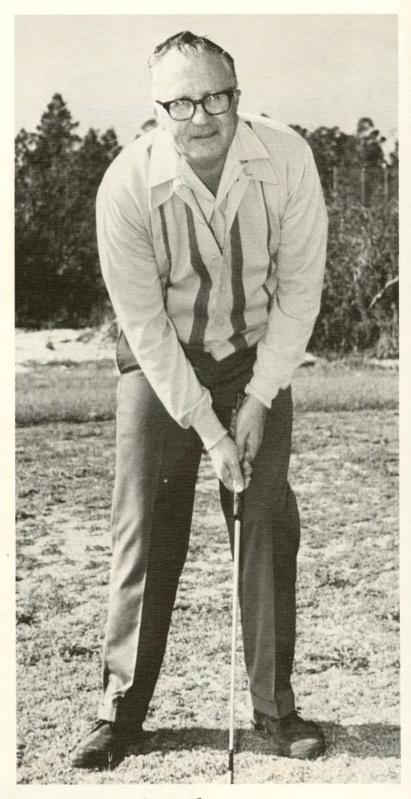

Dr. Mary J. McReynolds

College of Natural Sciences

The College of Natural Sciences not only pertains to the intellectual development of students, but includes a stimuli for a physical, social, and spiritual growth. It also works closely with various other colleges by offering general and specified courses in mathematical and general sciences. In particular, the College of Natural Sciences works with the College of Education in preparing secondary and elementary education students with a sound foundation in the biological, mathematical and physical sciences.

Associate Professor

Dr. Gerald C. Ventre

Assistant Professor

The College of Engineering and Technology offers programs in engineering and physics. Emphasis in the curricula is directed toward professional objectives. Graduates are well-qualified to pursue a variety of careers in private practice, government and industry.

Engineering is swiftly becoming one of the most important developments of today's society. Professional engineers are acquiring leading functions in design, manufacturing, construction, operative and management stages of engineering program areas.

Carol L. Carter

Instructor

Dr. Bernard C. Kissel

Dean of Social Sciences

Dr. William K. Grasty

Acting Chairman of Communication

The College of Social Sciences strives to provide specialized professional training through academic and practical study. The College emphasizes, too, a greater

awareness of the development, purposes and functions of the social sciences in today's society.

The College of Social Sciences serves the remaining five colleges of the University by offering various courses designed to broaden and develop the specialized courses generally associated outside the social sciences.

Dr. James C. Brophy

College of Humanities and Fine Arts

Hans Krenn

Assistant Professor

The College of Humanities and Fine Arts prepares a sound basis for specialists in the principal fields of the humanities and the fine arts. Major programs of study are offered in English, foreign languages, history, music, theatre, philosophy and religion . . . along with art and humanities.

The College also coordinates courses offered with those offered by the remaining colleges in fulfilling the requirements of the Environmental Studies Program.

It's Different

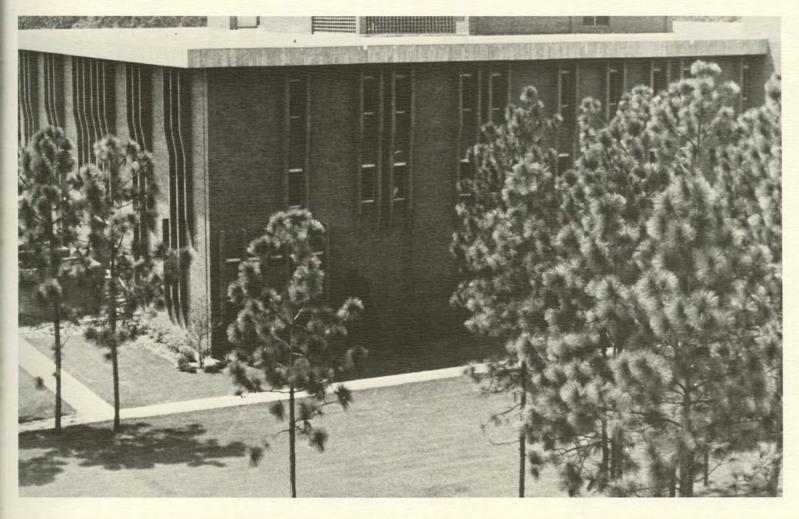

On first glance at FTU's East Orlando campus, one notices the diversified people, interests, landscaping, but particularly the buildings. The buildings are an indication of the varying ideas and opinions inherent at Florida Tech. From the Administration Building with its gold one-way glass to the multi-formed Engineering Building, Tech is portrayed as a university inviting interest. This interest is undoubtedly apparent, whether it is in academics, sports, or just looking at yourself in the gold windows.

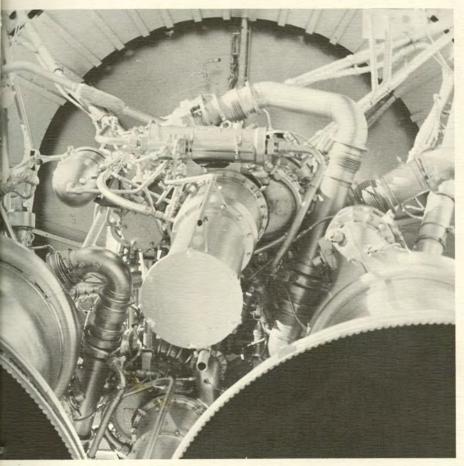

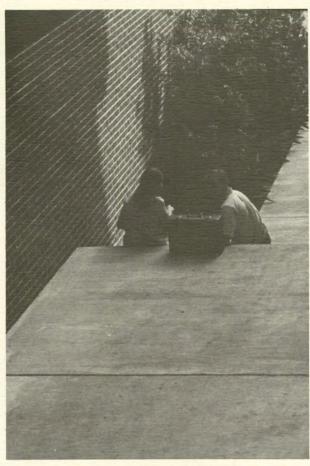

Variety Invites Interest at FTU

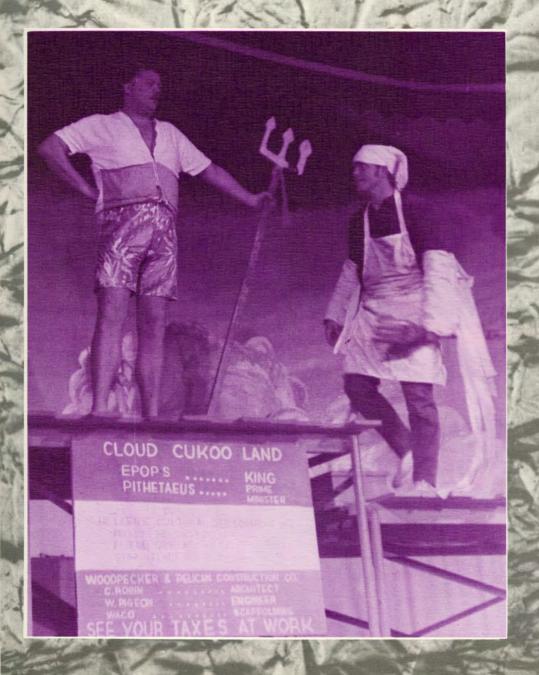

The New York Times

November-December 1970

Kirk's Dreams Shattered; Knights Become Reality

ORLANDO, FLORIDA (FTU)

The months of November and December were busy ones for Florida and FTU. Politically, Florida held its gubernatorial elections on November 2. Governor Claude Kirk, the first Republican governor in 100 years, had his hopes of re-election shattered by Pensacola's Reubin Askew.

The retiring Senator Spessard Holland's seat was filled by the "walking" Lawton Chiles of Lakeland. He defeated the veteran Republican candidate William Cramer for the seat.

Turning to the Tech campus, sports dominated these two months. The basketball team began their first year of intercollegiate ball with new uniforms and a new name. The "Knights of Pegasus" finished these two months with a record of 9-5. The wrestling team also began their first year of intercollegiate competition while the weight lifting team moved into their second year of existence.

In other areas the Theater Department put on an outstanding performance of the play, "The Birds," in late November. Several dignitaries visited FTU's campus; the foremost being Stewart Udall.

In late December the Engineering building was completed and turned over to the University. This completed the last part of the second phase of building.

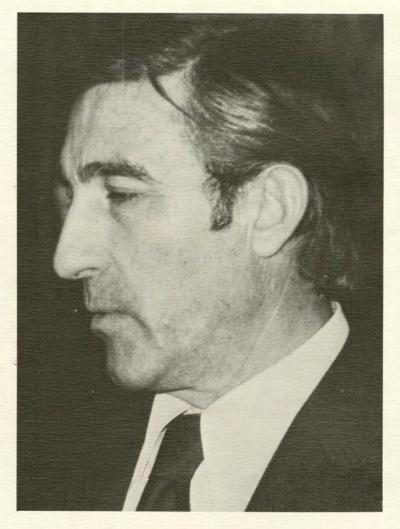

"Mr. Ecology" Pays FTU a Visit

On November 2, over 450 people heard Stewart Udall, former Secretary of the Interior and now Director of the International Ecological Consulting Organization "Overview Group," speak on ecology.

Udall congratulated FTU on its total environmental planning, saying that the only way for individuals to get involved with the crisis was to tackle an ecological problem and solve it even at the risk of confronting the establishment.

Udall concluded that the ecology crisis was creating interesting times; that the challenge may be the most interesting one since the Revolutionary War.

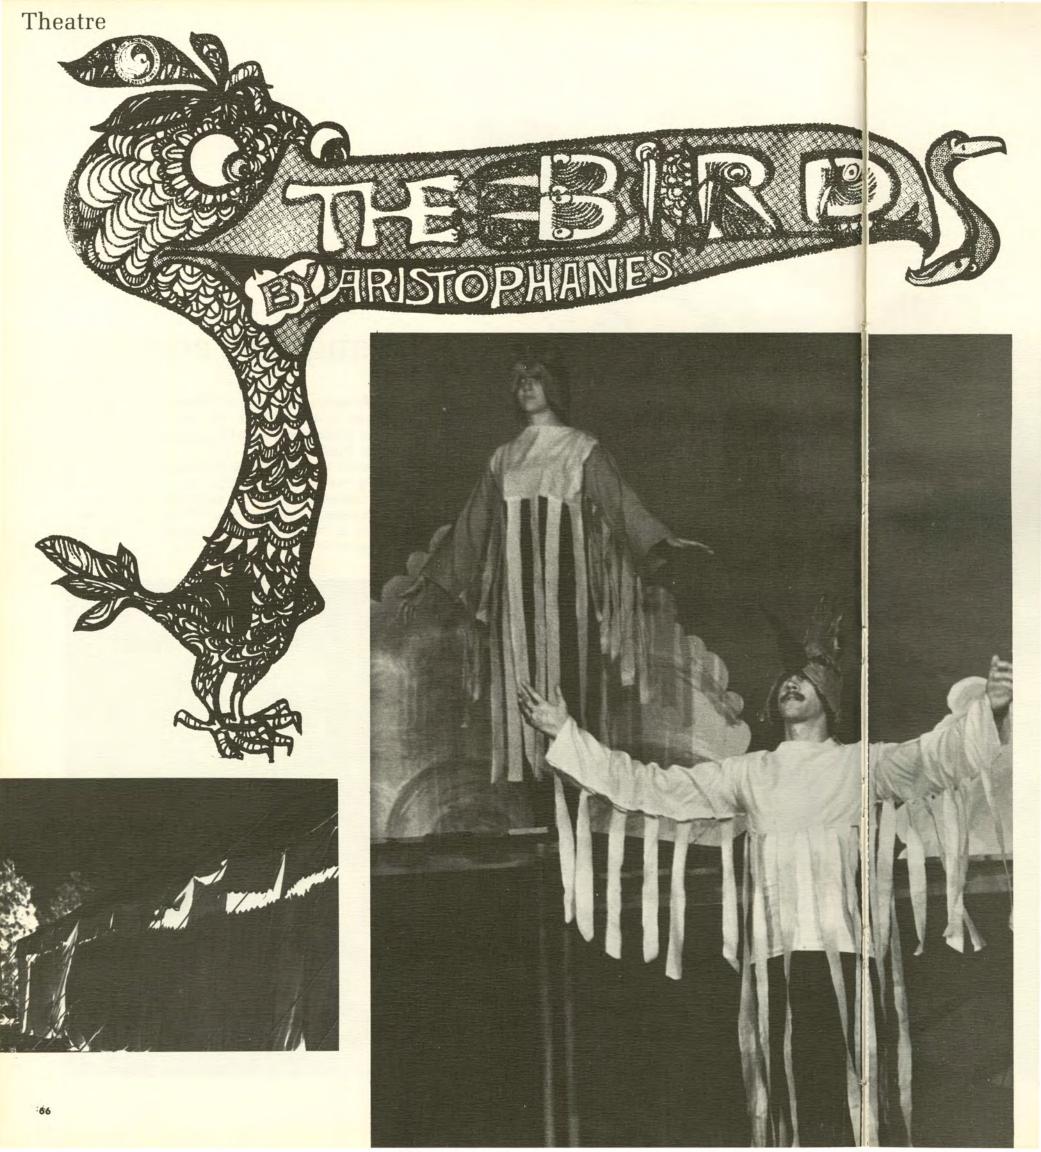

Changing Faces

On November 2, Governor Claude Kirk, the first Republican Governor since Reconstruction, had his hopes for re-election smashed by Reubin Askew, Democrat from Pensacola.

The other interesting race in Florida pitted Lawton Chiles, a relative newcomer to the field of politics, against veteran legislator William Cramer. This race received national publicity because Chiles walked from Pensacola to Miami during his campaign, covering a total distance of over 1,000 miles.

Cagers Score

Men's Intramural basketball kicked off with 19 teams taking to the courts. Three leagues: Fraternity, Independent Gold and Independent Black, each made up of a number of teams, vied for honors.

The underdog team of the Immortals reigned on campus December 10th as women's intramural powderpuff football champions, after beating tough Tyes sorority in

yardage playoff.

The Immortals, 4-1 for the season, had previously lost to the Tyes in regulation play. The Tyes combination of quarterback Nicki Jackson and halfback sister Daryl had swept their team to a 4-0 season mark before the championship tilt.

In the playoff before the championship game, the Immortals won the right to play the Tyes again after downing Earl's Bombers 13-6. The stage was set — sort of a

David and Goliath situation.

In a titanic defense struggle, the game in regulation time was tied 0-0. The Tyes put on a single strong thrust to the Immortal 10-yard line, but failed to reach paydirt when Daryl was nailed by Immortal co-captain Karen Matthews when she swept around the right end.

After the Immortals reached the Tyes' 15 in the second half, they were stopped on a broken pass play, suffering two injuries. After the regulation game ended in a tie, five minute sudden-death playoff was run as the girls ran clutch plays. Neither team scored, throwing the contest into a yardage playoff. The Immortals moved the ball 15 yards on a pass interference call which ultimately determined the winners of the women's powderpuff season. On fourth down, Immortal quarterback Jo Opisso, team co-captain, dropped to the ground and it was all over. The Immortals had prevailed and put down the Tyes, one of the strongest offense machines in powderpuff history.

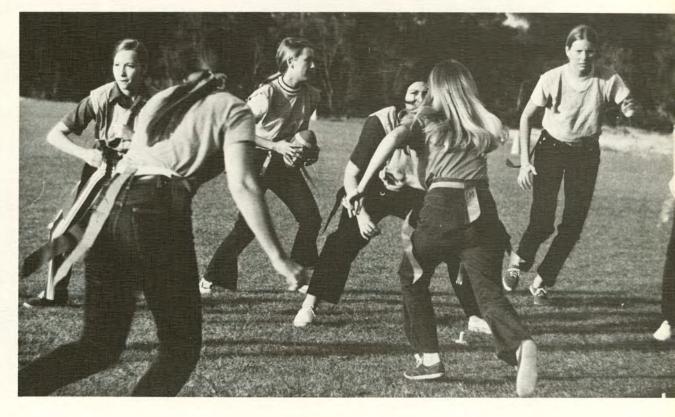

Outstanding game stars for the Immortals were Jo Opisso, Karen Matthews, Robin Cox, Anita Lorenz and JoAnn Cavanaugh while Tyes standouts were the Jackson

sisters, Diana Prevatt and Melissa Hardman.

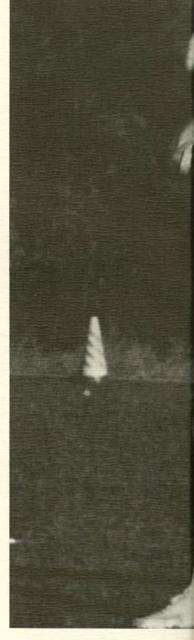

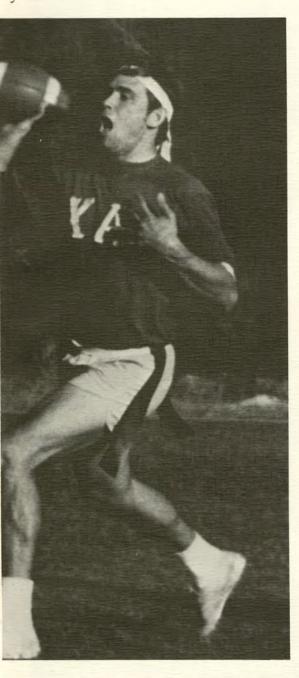

Intramural Football

Twenty intramural flag football teams took to the ields in the first week of October, eyeing the final championships in November. But this is where it must begin with winning each regular season game.

The turnout of spectators at games increased as the football spirit spread over the campus. More and more people filled up the sidelines as their respective teams did battle."

Chi Alpha took the top of the standings in late October rankings with a 4-0 record, followed by PKE with 3-1, PAE with 3-1, TAU 3-0, Faculty-Staff 3-0, and Bombers 3-0. Faculty-Staff's team was led by Ken Renner, head of the intramural program and received strong support on defense with Dr. Frank Rohter, chairman of the Physical Education Department. Meanwhile, on the other end of the field, the "world's most friendly football team," Delta Tau remained winless. At one game, the brothers were overheard "electing" a quarterback. TAU managed to edge them in that contest by some 60 points.

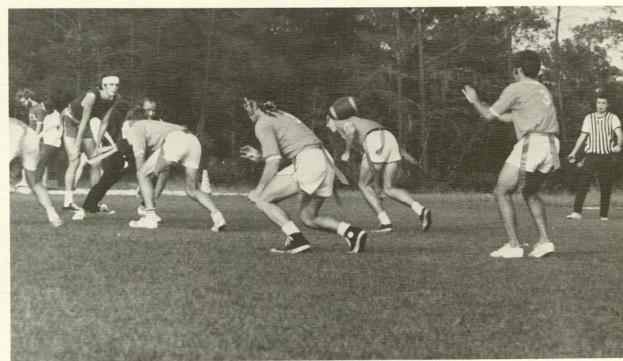

Kappa Sigma Alpha pulled one of the year's upsets when it took Chi Alpha 6-0. Kappa Sigma Alpha, led by Rick Smiley and Mac Hartley, with Joe Pauline and Paul Harkiewicz, Bob Harlowell and Scooter Kirkland, intercepting pass after pass to stun Chi Alpha. The defeat put Chi Alpha into a three-way tie for Greek League honors

with PAE and TAU.

In the Gold-Independent League, Faculty-Staff, Roadrunners, CCC and Theta-Sigma fought it out all season, no team managing to outdistance the others in the standings. In the Black League, Beulah's Bombers maintaining a perfect record with GDI, Mauraders, and "23" in close pursuit.

The Bombers, led by Harry Kelch and Grady Sykes, edged TAU 14-13 in the November "Superbowl" of the FTU intramural flag football season. Bobby Gibson and Allan Levesque aided Bombers' efforts.

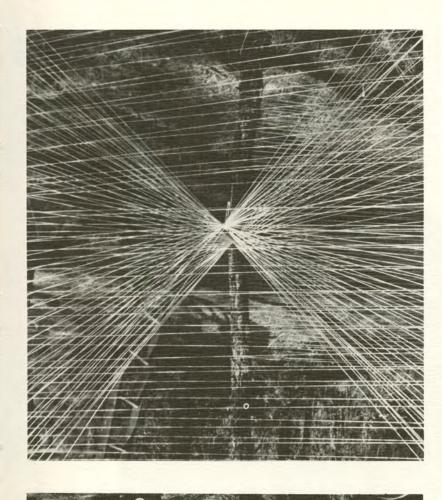

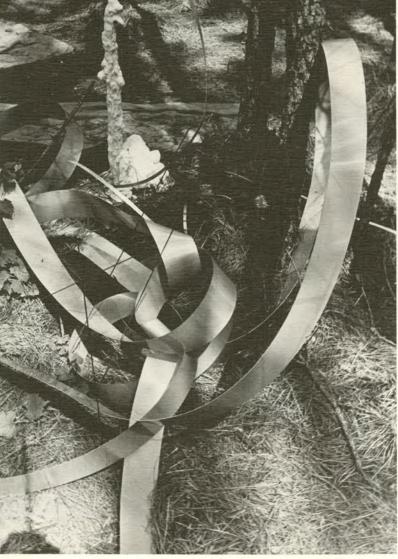

3-D Drawings in Space

One of the most interesting classes at FTU is Undergraduate Seminar 497, as is indicated by one of their latest projects. The students were instructed to go outside and create an "environment." Using only string, plaster, aluminum bands, and burlap, they created some very interesting effects. The site for the art class' creation was over the stream and in the woods behind the physical plant.

Talent Abundant in FTU Music Department

Arpad Szomoru and Dr. Leonidas N. Sarakatsannis.

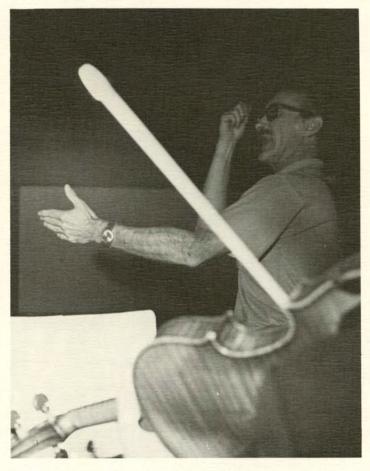

Sabina Micarelli, wife of Dean Charles J. Micarelli.

Jeanne Thompson performs for capacity crowd.

The multi-purpose room in the Village Center was filled to capacity with standing room only on Sunday, December 6 at 3:00 P.M. Five hundred faculty members, students, and other members of the community gathered to hear the FTU Department of Music perform special Christmas music. Sabina Micarelli, guest violinist received a standing ovation for her performance. Those present were impressed by the abundant talent displayed by the university's music department.

Arpad Szomoru, conductor of FTU Philharmonic Orchestra.

"The Knights of Pegasus"

Ed Smith — 12, Joe Maurer — 40, Robert Jenkins — 32, Randy Greenwood — 44, Don Mathis — 24, Jim Flanagan — 52, Charles Kamm — 20, Lovey Wells — 30, Mike Lalone — 34, Mike Clark — 14, Rudi Jessee — 10, Coaches — Gene "Torchy" Clark, Russ Salerno, Jack Pantelias and Tim Grady.

It began in October. It started with grueling two-hour practices, 26 of them. Wind sprints, one on one, one on two, more wind sprints, one on three - the FTU basketball team began to take shape. Speed, timing, and endurance were painfully drilled into the school's first intercollegiate team.

"We've got a nice ball club for a non-scholarship school," began Coach Gene "Torchy" Clark. "They have commendable talent. But when we come up against a scholarship school — that's something else." Coach Clark, in his second year at FTU, coached the initial ball club to a 13-3 season against service teams and clubs. He was described by Dr. Frank Rohter, then acting chairman of the physical education department as "the best man we could find to build FTU's basketball game." Opening up FTU's first intercollegiate venture, with a 26-game schedule that Coach Clark described as "rough," the yet-unnamed squad slowly molded into shape at the Oviedo High School gym. "This year's team has more depth, is a better club, and faces a harder schedule. My prediction? 5-21."

The team, still "getting their feet in shape," would go up against teams like Southwestern Georgia U., North

Carolina College and Fort Lauderdale U.

Out front from the beginning were Mike Clark, Rudi Jessee and Ed Smith. Clark brought experience and a deadly aim from last year. He was named most valuable player and averaged 18 points per game.

The FTU basketballers opened their first intercollegiate season against Embry-Riddle Aeronautical Institute November 17 and proceeded to outhustle, outshoot,

and outscore their visitors 111-37.

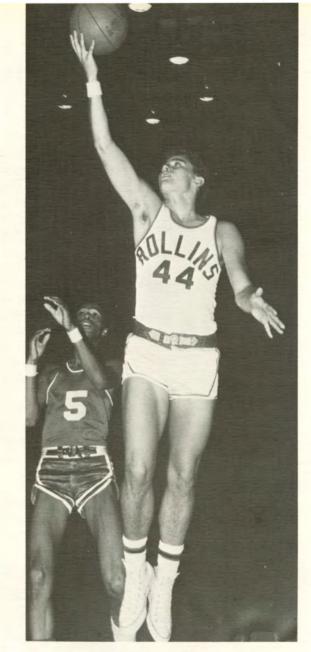

Over 1,000 fans cheered the FTU cagers, dressed in Rollins uniforms because Tech's hadn't arrived yet, as they topped the 100 mark late in the fourth quarter. The first intercollegiate point was made by Pat Fitzgerald, junior, on a free throw 1:37 into the game.

Smith, who went of 10 floor shots for 12 points stole the ball away from the hapless Embry-Riddle squad so many times that the official scorekeepers lost count. The crowd erupted into cheers again and again as "Super

Thief" Smith stole the ball and the show.

Embry Riddled by "Super Thief"

Mike Clark, a sophomore from Appleton, Wis., was last year's most valuable player, averaging 18 points.

Tech's first intercollegiate victory.

Knights Edge FLU; 78-77

Pat Fitzgerald saved the night for FTU November 20 when his last-second free throw gave FTU a 78-77 win over Fort Lauderdale University. The Tech roundballers set their mark to 2-0 with the win.

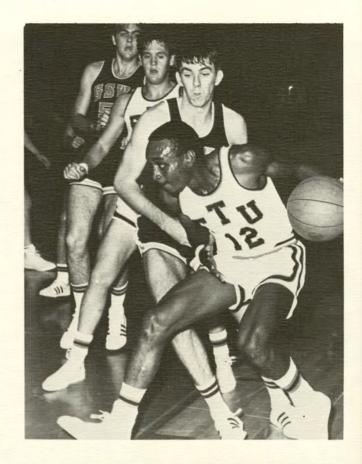

Fitzgerald was the high scorer for FTU, netting 25 points. Ed Smith and Mike Clark were second high scorers with 13 each.

FTU, still wearing their practice warm-up suits, managed to keep up with FLU through the first half. In the second, FLU pulled ahead by an eight point margin. FTU's Fitzgerald flashed into action and managed 10 points within three minutes to help Tech catch up.

FTU dropped the third game of its season 113-109 to Homestead Air Force Base, a team that averaged a full six inches of height over the Tech basketballers. It was FTU's first loss.

This was the second time FTU had broken 100 in three games. High rebounder for Tech was Don Mathis with 13. Mike Lalone grabbed 8. FTU shot 56% from the floor for the evening's effort.

Ed Smith, coming from Valencia Junior College where he was known as "Fast Eddie" added more depth and lightning speed to the FTU black and gold. Another junior, he is a 5-9 guard.

Standing Ovation in Savannah

On November 27, the FTU Knights, now 2-1 travelled to Savannah, Georgia, for the Cee Gee Classic. That night, the FTU basketballers were slated to play North Carolina College, the team that later won the tournament.

Mike Clark, Tech's leading scorer, sprained his ankle the first night of the tournament. He managed 13 points against N.C. College, while Rudi Jessee netted 22 in FTU's first tournament performance. FTU lost 93-87. Don Mathis and Mike Lalone both added 12.

The next night, in the consolation game, FTU took on Palm Beach Atlantic. The Knights worked like a precision piece of machinery as they ground out the points. Mike Clark led all scoring with 33 points. At halftime, FTU led 43-37. But PBA came out to play in the second half and out-scored FTU 46-37 to win 83-80.

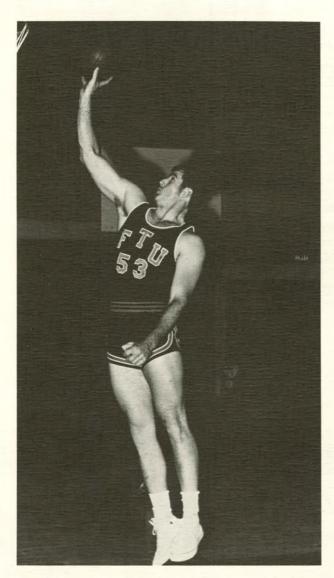

Then a surprising thing happened. It was the final second of the game. FTU was trailing and putting the scoring rush on. The buzzer sounded with the score 83-80. Then, a few people started clapping. Soon everyone was on their feet clapping for FTU's performance.

Rudi Jessee, 5-10 guard from Orlando Boone, was another returnee from last year. He brought a 12-point per game average with him.

Tech Celebrates Accreditation, Bombs PAFB

On December 4, FTU's basketball team celebrated the school's accreditation and the naming of the mascot, by toppling Patrick Air Force Base, 112-75 at Oviedo High.

During half-time ceremonies, FTU President Charles N. Millican unveiled the long-awaited mascot — the Knights of Pegasus. FTU is now 4-3.

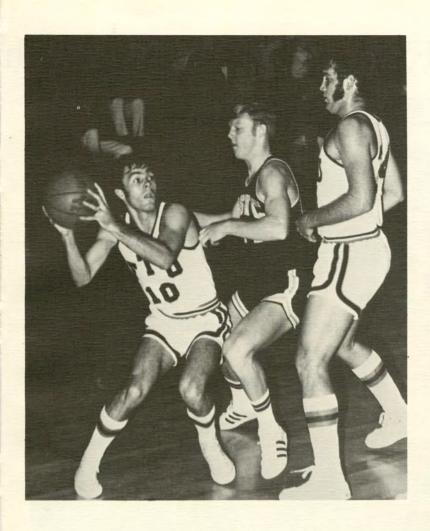

Mike Clark totaled 30 points and 16 assists. He was so hot that night that midway through the second half, he hit on three buckets within 15 seconds.

The visiting airmen, arriving late in white uniforms, caused quite a stir. FTU was already dressed in white and returned to the dressing room to don their traveling black uniforms.

FTU jumped to an 8-0 lead with 16:50 left in the first half and pushed it to 30-13 with 10:19 on the clock. George Snyder, the game's top scorer, helped Patrick close the gap with 34 points. Jim Flanagan totaled 18 points, Rudi Jessee 15 (12 in the first half), Mike Lalone 15, Don Mathis 13, and Pat Fitzgerald 10.

Jim Flanagan, 6-4 junior from Orlando Junior College will back up the team with his strength. A graduate of Kissimmee High, he is described as a "pretty good outside shooter."

Hurricanes by 9

Tall Southwestern Georgia held the lead the entire game and downed FTU 85-76 at Oviedo High, December 5.

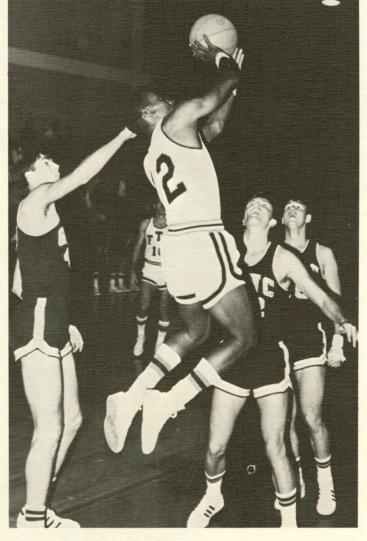

Doug Sauls led the Hurricanes with 30 points while FTU's Mike Clark, who managed 27 points (16 in the second half), was the high man for the Knights.

FTU, down 15 points most of the second half, closed the gap to 82-76 with 1:12 left. The Hurricanes though, were hitting 64 per cent from the floor and managed two quick buckets as time ran out on the clock, to ice the game.

FTU had the edge in field goals 33-32, but Southwestern hit a torrid 21 of 27 from the free throw line.

Rudi Jessee came across with 17 points and Ed Smith added 10 to FTU's effort. Mike Lalone totaled nine for the evening.

FTU is now 4-4.

Ed "Super Thief" Smith pumps for two points.

Don Mathis, 6-4 center, is a junior from West Palm Beach. He is the pivot man for the team, "smart . . . dedicated . . . comes to play."

FTU Stops Palm Beach

Atlantic in Rematch 78-65

FTU pushed its record to 5-4 in Miami when it defeated Florida Bible College 116-71. Mike Clark led the scoring with 27, followed by Rudi Jessee who totaled 24, next Ed Smith 20 and Jim Flanagan and Mike Lalone each netted 12.

Tech hit 16 of 26 at the free throw line and led 59-34 at the half. The roundballers hit over 52 per cent from the floor in their effort.

The next night, FTU took on and beat Palm Beach Atlantic 78-65 in a rematch of the Georgia Cee Gee Tournament game. Mike Clark again leading the Knights with 30 points and Rudi Jessee following with 15. Don Mathis led the rebounding with 15, backed up by Jim Flanagan's 10. This win put FTU's mark at 6-4.

At St. Petersburg, December 19, the Knights met and defeated Greensboro College of North Carolina 82-78. Scoring for FTU in double figures were Clark with 24, Smith 23, Flanagan 14, Jessee 11. Flanagan grabbed seven rebounds and Mathis helped the team out with four assists. FTU is now 7-4.

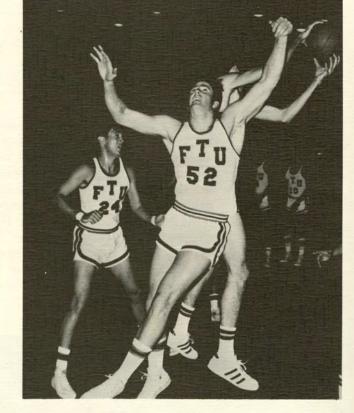

Snow Defeats Knights in New York City

Mathis returns ball down court.

Mike Lalone, 5-11 junior, is another Valencia Junior College product, where he averaged 12 points per game. "If he was taller he'd be a blue chipper," says Clark.

The Knights, now 7-4 packed their bags and travelled north for a three game series in New York and New Jersey.

FTU swept the first game with New York's Maritime Academy 103-83. The Knights, led by Mike Clark who managed a season high individual total of 41 points, completely overpowered the taller northerners.

FTU made it two in a row on the road when they toppled South Jersey 96-80. Clark, leading the scoring with 30 points, was assisted by Smith, who netted 21.

In the third game the Knights ran into trouble. Coming back to New York for a game with Cathedral College, the team was separated by a traffic jam caused by a snowstorm — and the car with Coach Clark and half the starting lineup failed to arrive until late in the first half.

Trailing 47-35, board man Jim Flanagan was in foul trouble with four. With six minutes left, FTU trailed by 17 points. However, the Knights pulled together and came within two of their goal; a last second tying tip-in barely missed. FTU returned home 9-5.

One of many Christmas trees being decorated by Village Center workers.

"Deck the Halls"

The festivities of Christmas were celebrated at FTU by such things as an old-fashioned tree-trimming at the Village Center. All over campus the Christmas spirit was evident as dorm rooms, classes and offices were decorated for the holiday season. But then on December 18 after final exams, the university was vacated when students, faculty, and staff took advantage of the three week holiday to enjoy Christmas in their own way.

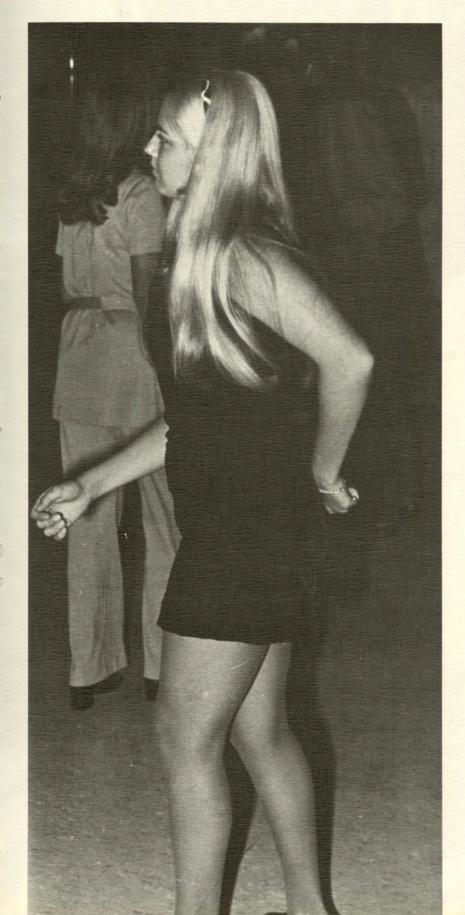

Christmas Dance

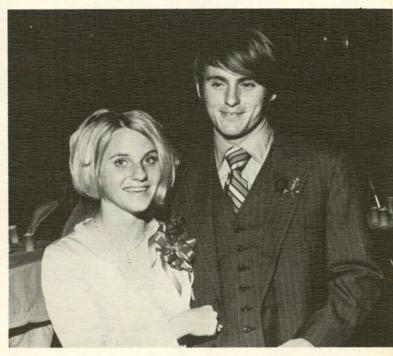

Jack Wilcox and Robbie Welch enjoy the sounds of In The Beginning.

Christmas Dance With the Box Tops?

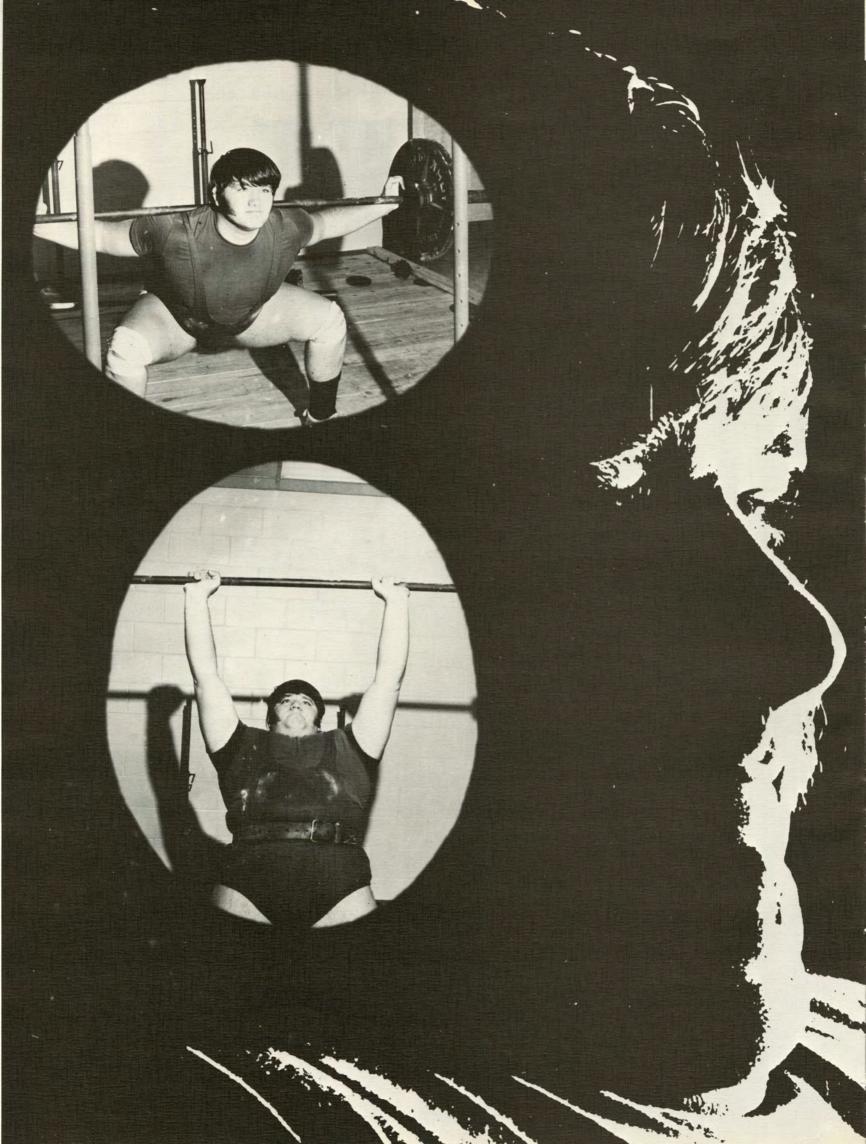

Fran Kaufman and Doug Roy experience the Christmas Spirit.

The Christmas season was highlighted by the Third Annual Christmas Dance, held December 4 in the Multi-Purpose room.

The Village Center sponsored function consisted of dancing, refreshments, beautiful decorations, and lovely gowns.

The 200 couples were somewhat dismayed when they learned The Box Tops would not be performing as scheduled.

However, the back-up band, In The Beginning, performed and the evening turned out to be a joyous one.

Lifters Ranked First by the AAU

FTU's Weightlifting Club reached new heights in 1970. The ten collegiate lifters set individual marks while capturing first place trophies around the southeast-

ern portion of the United States.

FTU's lifters were ranked in first place by the AAU. The Tech men tied for first place in the Region III championship in Jacksonville on October 3, placed third in the State AAU Powerlift Championships which they hosted on November 28, and took first place honors in the Tournament of Champions in Jacksonville on December 12 and the Teenage State Championships on January 16.

Beginning in an old worn-out warehouse in Oviedo last year, the Tech lifters moved to the Winter Park YMCA. Every Monday night they held meetings, and

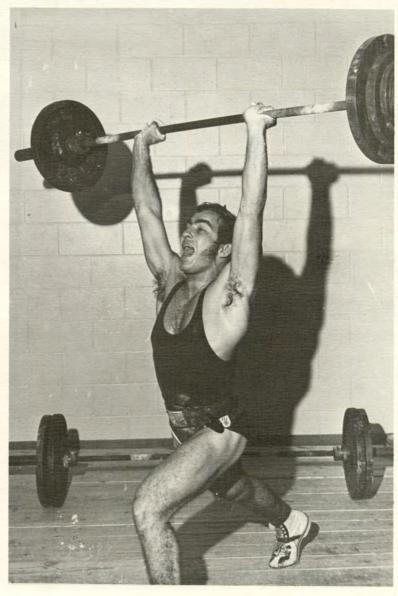

continued to work out throughout the week.

Last year, the club took second place honors in the National Collegiate Powerlift championships, the Tournament of Champions, the Atlanta Dixie Open, the State Teenage Championships and the State AAU Championships. They walked away with the first place in the State Collegiate Championships.

Leading the club was President Duane Slegel, a junior. He was backed up by vice president Farrell Byrd, a sophomore. Senior Gary Boo was the secretary and soph-

omore Keven Schnur was treasurer.

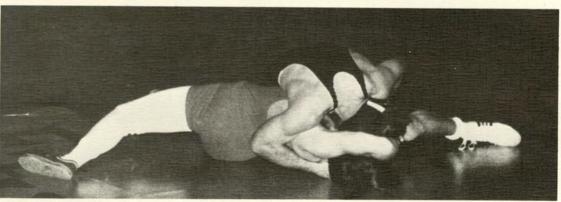

The club did what it had never done before: they hosted the State AAU Powerlift, in which they placed third. This year's club met strong opposition from clubs in Miami, Jacksonville, as well as teams from Gainesville and Tallahassee.

Wrestling

Pinned,

Again!

Grappling for the Stars

In the second week of October, twenty male students, most of whom had never wrestled before, began to work out under the firm eye of Coach Gerry Gergley. This, a new sport, was added to FTU's ever-growing athletic program: collegiate wrestling.

"The student athletes at FTU definitely have the desire and potential to reach for the stars and become outstanding collegiate wrestlers." With this, Coach Gergley scheduled matches, mostly away meets because of lack of a mat, while the wrestling club worked out daily.

Practicing on tumbling mats at Lawton Elementary Junior High School, "Gergley's Grapplers," as they became known to the student body, worked and sweated, learning, trying and becoming proficient at the art of wrestling. There was no room for fancy frills or complicated-sounding acrobatics — just the basics, becoming fast, so quick that you could pin a man in 58 seconds after the match began.

As the days passed into the month of November, scrimmages were set up with the University of Florida, matches with Broward Junior College, Miami-Dade North Junior College, the state defending champions, and Tampa as well as Florida State University and South

Florida.

The number of wrestlers grew to thirty as they faith-

fully practiced.

Úniforms — black and gold — to make FTU "the sharpest-looking team in central Florida" were ordered.

The stage was set. The wrestlers were ready for their

matches. And so was the school.

The wrestlers gained self assurance as they worked under Gergley. John Rouse, 240-pound heavyweight wrestler, known for his good humor, won the first match he ever wrestled — winning a trophy after a 8-1 decision in his favor. He was named top in his division at the Fort Meyers-Lee County AAU Open Wrestling Tournament. Fellow FTU wrestler Charlie Patton, a junior engineering major, placed third in the 198-pound division. Rouse is a 20 year old physical education junior.

FTU opened its season with a trip to Fort Lauderdale to face Broward Junior College, one of the state's strongest teams. BJC's Seahorses toppled FTU 40-10. A return

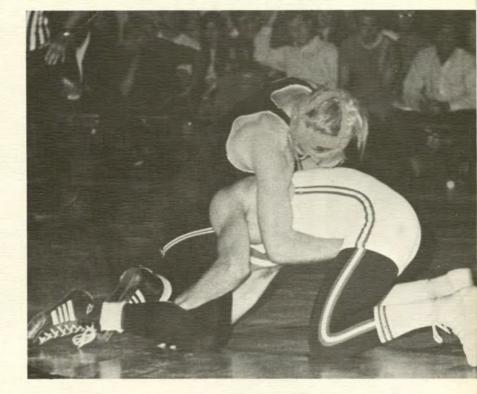

match was set in January.

Four FTU grapplers travelled to Miami in December for the Sunshine Open Tournament. There they wrestled among the 300 entries, from schools like Ohio University, Ashland and the University of Tennessee at Chattanooga, Each of which brought two complete teams to wrestle.

The FTU club members did not place in the tournament; the competition was stiff as some of the best

schools in the nation competed.

FTUers who went with Coaches Gergley and Ellis were: John Rouse, Scott Campbell, Charlie Patton and Bob LeClaire.

Reubin Askew Sworn in as Governor

TALLAHASSEE Reubin O'Donovan Askew took the oath as Florida's 37th governor Tuesday, January 5, 1971. Following the swearing in, Governor Askew pledged higher taxes, with a shift of the burden from the consumer, a new commitment to save the ecology, and a solution to the financial troubles of the cities.

Askew spoke forcefully, but solemnly, during the thirty minute inaugural address on a chilly, windy day. The new governor pointed out that "this is going to be one of those years in which the question would not be whether there will be new state taxes, but rather, who will have to pay. The hard facts of the financial crisis that faces us today are now drawing on even the most optimistic of us," he said. Askew complained that past legislatures have built up property and consumer taxes on middle and low income families while granting tax

exemptions to the politically influential." He added, "Continually turning to higher consumer and property taxes to pay for needed public services without facing up to tax inequities is the answer of yesterday."

The governor promised that a searching study of all state government programs would be conducted.

Concerning the environment, Askew pledged new, but unspecified programs to preserve the natural beauty of the state of Florida. "Economic growth concerns every one of us, because jobs and payrolls are the hallmark of a healthy state," he said. "We must insure our continuing economic prosperity. But the price we pay for growth must be carefully evaluated. We must recognize that the destruction of Florida is a price too high."

Five hours after he was inaugurated, Governor Askew began his drive for an income tax on corporate profits.

Nixon Halts Barge Canal Construction

WASHINGTON The Cross-Florida Barge Canal is all but dead after President Nixon's order of January 19, 1971, which called for complete stoppage of work on the controversial proposed waterway. With the message read by press secretary Ron Zeigler, Nixon became the first President to intervene in a project of state concern in the name of environmental preservation

The Council on Environmental Quality was instrumental in bringing about the President's action, having advised him that "the project would endanger the unique wildlife of the area and destroy this region of unusual and unique natural beauty." Other reasons for the halt include a documented threat to water quality and quantity within the Florida aquifer lying to the west of the Oklawaha River Valley, and the dubious economic benefits to be realized from the project.

The decision met with criticism from Governor Askew, who expressed concern over the fact that the President had not first conferred with Tallahassee and the Florida Congressional Delegation. The Governor is now taking steps to try to resolve the problem in the best interest of all those involved.

FEBRUARY

FTU Celebrates First Homecoming

FTU-101; FIT-75

ORLANDO Florida Technological University observed its first Homecoming on the weekend of February twelfth through the fourteenth. A Medieval theme ran through all the celebrations as the school's newlychosen mascot, the Knights of Pegasus, added to the courtly atmosphere. The highlight of the weekend occurred Saturday night when the FTU basketball Knights charged to a 101-75 victory over FIT in a grudge match at the Oveido High School gym.

The Knights, returning to school from their Christmas vacation, swept the first four games they played, downing McDill AFB, Florida Bible College, Patrick AFB and Ft. Lauderdale University.

A few changes came in the Knights' line-up with the opening of the new year. Jim Flanagan and Mike Lalone began to start in these games, rather than only temporarily aid the team as they had done before. Coach Clark pointed out that these changes were a result of more ex-

perience on the player's part.

At home on January 6, the Knights bombed McDill AFB, 102-73. Mike Clark totaled 24 points for the night, and Jim Flanagan, noted by Coach Clark before the season as having the "heart of a 5'10" man, unusual for a big player (6'4") . . . along with great desire," netted 23 points. FTU controlled the boards in spite of the difference in height.

Florida Bible College took on the FTU team January 11 and were soundly thrashed 99-71, by the sheer deter-

mination and hustle of the Knights.

Next, the Knights travelled to Patrick AFB to hand them a bitter 97-95 defeat. The January 15 game marked

FTU's second victory over that team.

A field goal in the closing moments of the Knights' eighteenth game resulted in still another win for FTU: Florida Tech edged past Ft. Lauderdale, 63-61.

Bob Jenkins, a 6'0" education senior, the "most improved player over last year," says Coach Clark. "He has a good attitude — he helps out our team because he is a good leaper." He is one of the 'front seven,' according to Clark, "dependable and does a good job."

Joe Maurer, another education freshman, dislocated his shoulder after eight games with the Knights. He started around late December, and played in the New York series. "He'll come back next year," says Coach Clark.

Randy Greenwood, a sophomore in engineering, also assisted the Knights during this season. Randy is a native of Orlando.

FTU "Technically" Loses

The Knights continued their season when they were hosted by Florida Institute of Technology on January 23. FTU's first encounter with FIT led to a heated and exciting game, to say the least. However, FIT sneaked past the fighting Knights, 109-91. This FTU defeat set the stage for what would be a fatal rematch for FIT later in the season.

The next game took place in the College of Orlando gymnasium on January 25 when Florida Tech battled New Paltz State College from New York. FTU dribbled by the northerners without too much difficulty, grabbing a 96-88 victory. The game was held at the College of Orlando in an attempt to draw more of a crowd and to give Orlandoans a better chance to see the Knights in action. There was a good turnout for the game.

FTU then hosted McCoy AFB on January 29. The flyers proved to be too much for the Knights, though,

and McCoy came out victorious, 104-97.

Entering the second month of the new year, Florida Tech hosted another group of airmen, this time Homestead AFB. The Knights were up to par and Homestead

was defeated by FTU, 123-87.

Then came what seemed to be a losing spell. The Knights suffered their eighth loss February 8 as Southwestern Georgia College, with a definitely stronger ball club, conquered the FTU cagers, 84-72, despite the valiant efforts of Clark, Smith, Mathis, Jessee, Flanagan and Lalone. The team had traveled all day and was followed by a bus load of FTU fans. Student Government had sponsored, free of charge, an air conditioned bus for the game at Americus, Georgia.

Some people commented that the Knights' thoughts weren't on the game with SWGC. For, only five days away was a basketball contest against FTU's arch-rival, Florida Institute of Technology. It would be Florida Technological University's first homecoming. FIT had

beaten FTU before. Would it do so again?

Homecoming

Paul Harkiewicz waits patiently to get dunked in Kappa Sig's booth at the Medieval Festival.

Homecoming schedules and campaign posters dominated campus bulletin boards.

Jousting can be rough when you're out of practice.

At the archery range, Kathy Lauten showed off her skill with a bow and arrow. Judging from the reactions, she seems to have surprised everyone — even herself.

Once upon a time, a university called FTU decided to have its first Homecoming. Now, a first Homecoming is a strange phenomenon — not yet impressive enough to draw total participation, and yet offering a few hours of fun and merriment to those who will take it. Funded and coordinated by Student Government, the weekend's activities turned FTU into a Medieval Kingdom as they carried out the theme, "FTU's Time Machine."

The festivities began March twelfth with voting for Homecoming queen and a fashion show at which the thirteen candidates were presented. On Friday, students passed their lunch hour listening to a concert by "It's Time" in the Multi-Purpose Room. Friday night was dubbed the Nite of Knights, with skits being presented by several Greek organizations and the five finalists in the Homecoming queen competition being announced. In an eight o'clock wrestling meet, FTU lost to State Champs Miami-Dade North Junior College, and the match was followed by a street dance which featured "Raintree County."

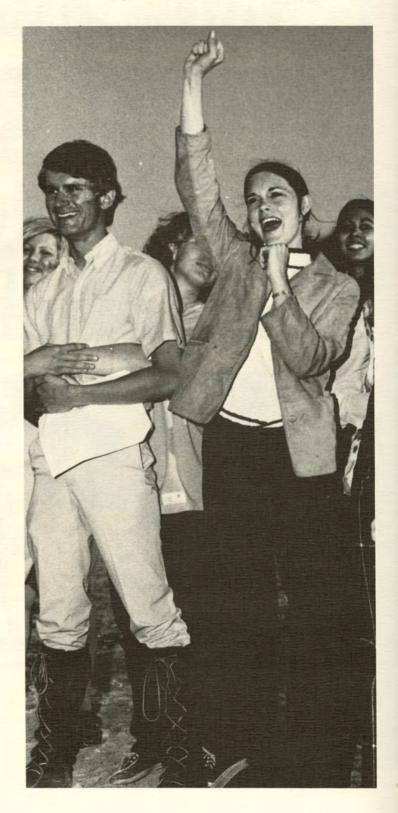

Open house on Saturday morning proved somewhat disappointing, as only three-hundred people came to tour the school. Later in the day a Medieval Festival, organized by Delta Tau fraternity, brought some action back to the campus. Various organizations sponsored booths, and everyone enjoyed the Knightly Contests, which included jousting on tandem bikes, arm and log wrestling, and plenty of hearty laughs. Surprisingly, the

fellows didn't have a monopoly on the knightly pursuits. Fideles sorority won the Fun Road Rally, and Tyes sorority won the award for the organization with the most participation.

Students and alumni alike packed the Oveido High School gym to watch Florida Tech defeat arch-rival FIT. After the game, everyone headed back to the campus for the Homecoming dance, sponsored by Collegiate Civitan

Can a Medieval Festival, complete with feats of strength and bravery, chivalrous young men, and not-so-distressed fair damsels be fun? The faces tell the story.

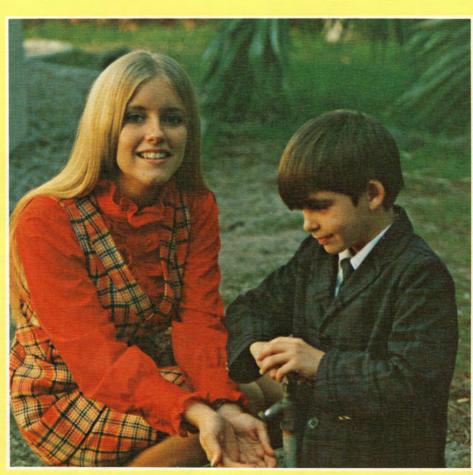

Club. President Charles Millican crowned freshman Patty Gray FTU's first Homecoming queen, and at the magic hour of midnight, the Time Machine slowly began to bring FTU back to the present. For, after all, all "Once upon a time . . ." stories must come to an end at last.

Campus Happenings

Buffalo Bob performs . . .

If there was any one thing that Florida Technological University could be remembered most for during the winter quarter, perhaps it would be the campus happenings. "Action" was the password as FTU extended a welcome to numerous guests, entertainers, and visitors.

Buffalo Bob filled the Science Auditorium with cries of "It's Howdy Doody time!" Betty Friedan lectured to a standing-room-only crowd on behalf of the Women's Liberation Movement. The FTU Village Players staged a series of eight one-act plays, directed for the first time by students. Miss Florida, Lisa Donovan, added to the attractiveness of the campus when she toured the university. And a special "hot line" phone connected Florida Tech with its student-manned exhibit at the Central Florida Fair.

There was also an open house on the campus, enabling parents and guests to examine the university and to meet the faculty. It was indeed a quarter of action . . .

(Each Print Personally Signed By Artist)

On the night of February 13, after three days of funfilled homecoming activities, the big moment arrived: it was time for FTU's first Homecoming game. Before the game, starter Ed Smith capsuled the team's thoughts: "This is the one we want to win. Because of the last game with FIT, we're looking forward to this one. The whole team is going to put everything on the line."

And indeed it did. FTU's name as well as her honor was at stake. Florida Institute of Technology from Melbourne called itself "Florida Tech." So did FTU. But it didn't take long to settle the name claim. Clark, displaying skillful ball handling and garbage shots at the same time, turned the crowd on with 40 points. Joe's Rubber Band kept the spirit up, and Smith backed Clark up with 17 points in the first half to shove FTU ahead, 53-33. The lead never diminished as Jessee threw in his 15 points and Lalone chipped in 12 more. FTU demolished FIT. What a way to end a Homecoming!

FTU next travelled to McCoy AFB only to meet its final defeat of the season. The Knights were noticeably down that game, and McCoy was the victor, 112-93.

Florida Tech terminated the season with a win over Palm Beach Atlantic University the following evening, 89-67.

The Knights had won their first and last games, producing a final record of 17 wins, 9 losses, and giving Florida Technological University a basketball season that would not be forgotten for some time.

FTU Settles Name

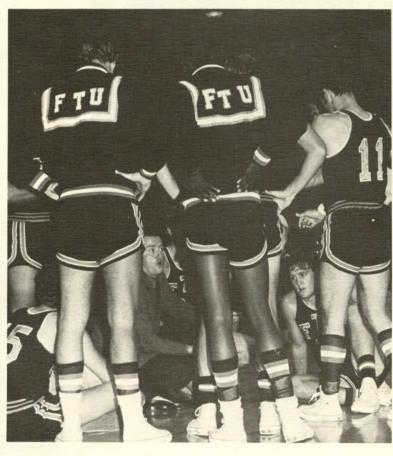

Claim With FIT

Lovey Wells, a freshman in engineering, plays a lot of summer ball and is "a good jumper" in the eyes of Coach Clark. "He could develop into a good team member," notes Clark. "He has potential."

Charles Kamm, a social sciences freshman, helped the team out in the latter half of the season. "I liked Charlie" commented Coach Clark.

lie," commented Coach Clark. Mike Cluney, from New Smyrna Beach, was another member of the squad this year. Mike, a freshman, majors in education.

"Torchy"

Basketball Coach Gene "Torchy" Clark gave up a football-basketball dynasty in Appleton, Wisconsin, to come to FTU. Clark arrived at FTU in 1968, leaving behind a 178-14 total won-lost record with eight consecutive basketball championships and seven out of eight football conference titles at Xavier High. His outlook can be summed up in a few short words: Be your best . . . discipline . . . every game is the big one.

Coach Clark played three years of scholarship ball at Markette University where he earned the nickname "Torchy." In addition to coaching the intercollegiate cagers, he teaches coaching administration and elementary physical education in the College of Education.

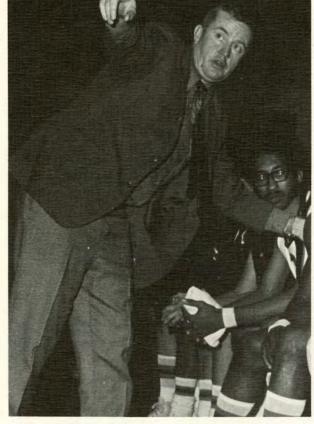

At FTU, Coach Clark posts a 30-12 total record after two years. At the beginning of the 1970-71 season, he predicted a 5-21 overall season performance. The cagers ended up 17-9. Coach Clark just smiles and shrugs. Next year's performance, playing teams like Rollins, Florida Southern, and Florida A&M?

Former player Russ Salerno joined FTU this year as an assistant coach. Salerno is a graduate student at Florida Tech and head of the pep club committee, which is in charge of all half-time activities.

Jack Pantelias, FTU student basketball coach, also lent a hand in the administrative part of the team.

Tim Grady, junior varsity coach and team statistician, is a graduate student who has been with the program two years as manager.

"It's been a long way, but we're here." Alan B. Shepard, Jr. February 5, 1971

"The current focus on campus unrest across the country should not detract from the tremendous progress Florida universities have made during the past ten years; it should not obscure the fact that the great majority of students are law abiding and idealistic with a very real desire for constructive change; it should not make us less willing to listen to and respect those who legitimately and honestly seek to express themselves."

Gov. Reubin Askew January 5, 1971

"I am today ordering a halt to further construction of the Cross Florida Barge Canal to prevent potentially serious environmental damages . . .

The step I have taken today will prevent a past mistake from causing permanent damage. But more important, we must assure that in the future we take not only full but also timely account of the environmental impact of such projects — so that instead of merely halting the damage, we prevent it."

President Richard M. Nixon January 19, 1971

"... And throughout it all, whether you agreed with me or disagreed with me, you knew you had a Governor. Because the Governorship is stronger, every single Floridian stands a little taller."

Gov. Claude R. Kirk, Jr. January 5, 1971

Jan. 12

Although FTU's fledgling wrestling club lost to a high rated Broward Community College, the Tech Grapplers made a tremendous showing, as did the FTU student body, who turned out to support their team in the first intercollegiate sporting event ever held on campus. BCC 38, FTU 10.

Jan. 15

Gergley's Grapplers wiped the floor with Florida State's matmen as a frantic crowd edged Tech on and the Knights jousted their way to victory. Coach Gergley, very pleased with his team's performance, was quoted as saying that the match was "the biggest thing that ever happened to this team." FTU 28, FSU 17.

Jan. 22

Miami-Dade North Junior College, the State's defending champions overpowered Tech's Knights with a score of 31 to 13.

Feb. 3

FTU won a big upset over the University of Tampa Spartans 26-20 in the Village Center.

Feb. 12

HOMECOMING: Although the grapplers tried, they were grounded by bad weather, namely Miami-Dade North Jr. College. MDNJC, the reigning Florida State Champions for the past four years defeated FTU by a score of 26-15 in the campus Village Center. Although FTU lost physically, the crowd of home fans presented the team with a spiritual victory by turning out in full force.

Grapplers Go Intercollegiate

Dr. Frank Rohter, Chairman of the Department of Physical Education disclosed that Gergley's Grapplers will, in 1972, acquire intercollegiate status, to become FTU's third intercollegiate sport.

Standing, left to right: Duane Slegel, Mike Harmon, Harvey Newton, John Rouse; Sitting, left to right: John Byrd, Kevin Schnur, Mike Stone; Not pictured: Gary Boo, Glenn Byrd, Mike Hatcher, George Regan, Steve Favis.

John Byrd, Mike Stone Pace Lifters

FTU Weightlifting Club took the team title in the 1971 Florida State Teenage Weightlifting Championships, January 16 in Jacksonville. John Byrd set two state marks.

The Knights totaled 24 points, beating second place Riverside Athletic League's 16 and the University of Florida's 3 points.

Three other lifters became teenage state champions, Ed Weber, Kevin Schnur and Carl Wessels.

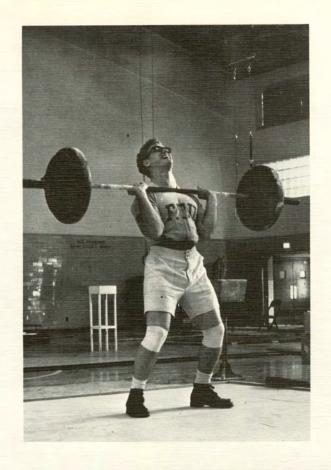

At Gainesville, U of F took the State Collegiate Championships on February 14, beating FTU by only one point, 23-22. John Byrd broke his own record for the Snatch, Clean & Jerk, and total pounds in the 132 class.

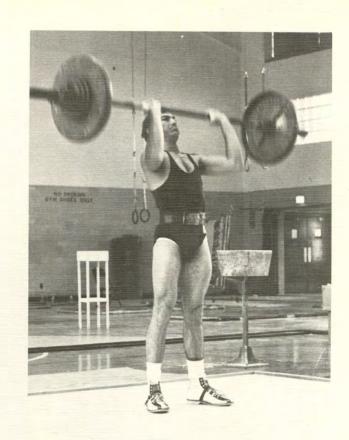

Harvey Newton broke all the college records for the 242 pound class, which he previously held. Mike Stone broke the collegiate record for the Press in the superheavyweight class and continues to hold the other three lift records.

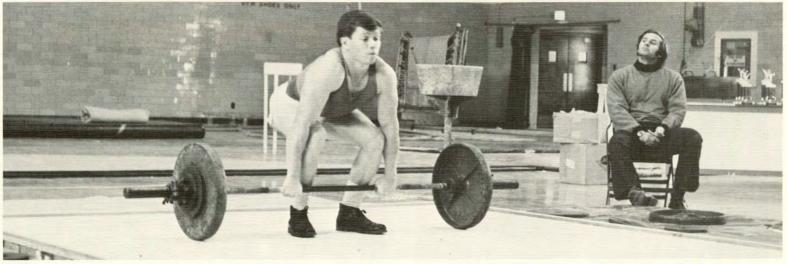

Gainesville took the meet by stacking the lightweight classes and out-scoring FTU which had taken only eight members to the tournament.

Seven Candidates Vie for Student Body President

Calley Found Guilty

ORLANDO (FTU)

While the majority of FTU's student body had left campus for the day and others were preparing for the Lettermen. Concert that evening, tragedy struck close to the heart of many FTU'ers, especially President Charles Millican. The tragedy appeared in the form of an unruly, blazing fire. What added disgust on top of sorrow was the fact that it was not accidental, but the work of an arsonist.

More than 1,200 acres of campus were engulfied in the wind-fed inferno. Smoke filled the sky so even the sun

Smoke filled the sky so even the sun was hidden by the black, ash-saturated air. The strens of the police cruisers and fire trucks rose to an irritating pitch. The most disheartening sound was that of the crackling of timber and young pine trees. Years and years of solitary growth were destroyed in seconds.

Firefighters from Union Park, Killarney, Goldenrod, Oviedo, Florida Forestry Service and nine other areas battled the blaze, The unfamiliar maze of campus roadway and sparse location of fire hydrants proved to be a hindrance to the firefighters. was hidden by the black, ash-saturated

indrance to the firefighters.

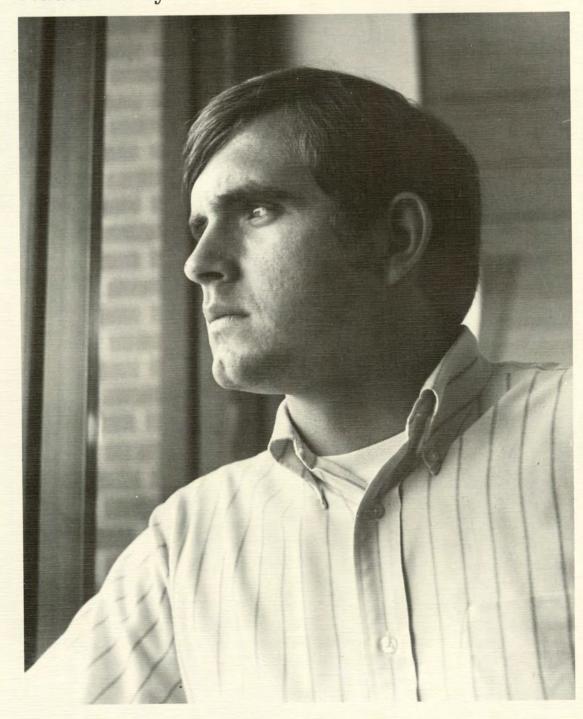

Thoughts of President Millican's efforts to preserve as much of the University's natural environment, whenever and wherever possible, seemed to run rampant. Standing on the threshold of the fire, one could but only imagine his grief.

By late evening, a heavy fog had settled over the area and nestled the smoldering woods. As the sun rose, clear and bright, the smell of burnt wood lingered and the results of one or maybe more persons selfishness was evident

Legislature Critical of Student Gov't Policies; Stringer Demands Apology From Regents

James Stringer Student Body President

University Student Governments in Florida were the focal point of much criticism from the Legislature in the past year over campus speakers, university publications and administration. As a member of the Council of Student Body Presidents, Jim Stringer actively defended the Student Body's right in choice of speakers and demanded an apology from the State Board of Regents after not being allowed to make a presentation against the increase in tuition and housing. FTU's second Student Body President and Student Government utilized funds for the early completion of the Lake Claire Project, expanded the cabinet for more representation, inaugurated Tech's first Homecoming and fought the twelve hour rule for office seekers.

Richard Lancaster Student Body Vice President

Stringer upheld the Senate's approval of the Residence Hall Association only to be vetoed by President Millican.

The SG administration was marked by the appearance of speakers Julian Bond and Frank Reynolds on campus and the Lettermen in concert. The instigation of the fulltime operation of the Student Government office and the development of a more open rapport with the University administration, giving SG a louder voice in student affairs, highlights his office.

An opportunity to provide legal aid to students on campus was firmly rejected by the University administration. Trying to bring modern culture to FTU in the form of the Broadway Show "To Be Young, Gifted and Black" ran into a stone wall with the lack of administration approval.

Besides aiding the SG President, Vice President Richard Lancaster chaired the Senate at its weekly meetings. Unable to find a permanent parliamentarian, Lancaster also served in this capacity. A major project undertaken by Lancaster was the editing of Student Government's first Newsletter. The six page Newsletter covers pertinent SG information.

As the Stringer-Lancaster administration drew to a close, the scoreboard of SG vs. Administration could be read with a favorable forecast.

The Third Session of the Student Body Senate convened in the midst of an expansion of the SG offices from two to four rooms in the Library Building. The 70-71 Session was marked by several bills which set guidelines for budget requests, presidential and senatorial elections, approval of clubs, and organizations. As the year progressed, the Senate proceeded in appropriating money for projects such as Homecoming, Birth March, class projects, Miss FTU Pageant, speakers Julian Bond and Frank Reynolds and the Lettermen. In spring quarter, the meetings seemed to grow longer as the Senate became more and more aware of the need for changes and establishment of new ideas.

College of Engineering, left to right: Bob Matousek, Raoul Webb, JoAnne Puglisi, Gary Rasponi.

Student Government

Presentation of bills on the Senate floor requires in-depth research.

Power of debate is essential to convey a senator's ideas and beliefs.

Oath of Office

As a duly elected officer of the Student Government of Florida Technological University do you solemnly swear to faithfully execute duties of your office and to the best of your ability uphold the Constitution of the student body of Florida Technological University and the Constitution of the State of Florida.

(I Do)

Now therefore, I, Jim Stringer, as President of the Student Government of Florida Technological University, hereby officially install you into your respective office.

Voting is an integral part of a senator's responsibilities.

With the aid of a full-time Student Government secretary, senators and executive officers were kept better informed.

Work with one of these committees is also required: Budget Clubs and Organizations Constitutional Revision Programs Statutes and Procedures

Village Center Presents

Speakers, concerts, dances, movies, and many other extracurricular activities are all the responsibility of the Village Center, heart of the campus programming and student functions. The Village Center Board, consisting of six students, two faculty members and three Village Center staff members, spends many hours deciding on the type of programs the Student Body would enjoy having on campus. Events are planned and organized weeks before a student even learns of its forthcoming. Stuart Udall, Betty Friedan and Saul Bellow brought forth differing views as VC speakers. Buffalo Bob and Howdy Doody brought back childhood memories to many FTU'ers as he bellowed "It's Howdy Doody Time." Tradition was carried on with the annual

Christmas Dance and Spring Formal. Recent movies, such as "The Graduate" and "Butch Cassidy and the Sundance Kid" highlighted Friday and Sunday evenings. The annual Interdisciplinary program is also under their direction. Other areas in which the VC keeps constantly involved are campus tours, art exhibits, classical concerts, fashion shows and the information desk. To better accommodate the ever increasing enrollment, the VC turned to the lawn north of the VC for many of its crowdgathering functions like the Folk Festival. No matter how long it takes or what difficulties have to be overcome, the Village Center always comes through for Tech's studentry.

Left to right: Debbie Wheatley, Mrs. Linda Eastman, Charlotte Scott, Mr. Jimmie Ferrell, Director of Village Center; Dr. Chris Clausen, Anne Edrington, Diana Prevatt, President; Mrs. Wanda Russell, Rick Alter, Devo Heller, Dr. Richard Adicks.

Cheerleaders Lead Biggest and Best Student Turnout

As more and more people were becoming interested in viewing our intercollegiate teams play, the ever faithful and effervescent cheerleaders were there to lead the spectators in cheers and urge the teams on to victory. Daily practice and long bus rides were the order of the day for the basketball season. Cheerleaders worked hard to accumulate enough funds to purchase new uniforms for next year. A concurrent feeling among many spectators was that the first Homecoming game was the most thrilling and satisfying game of the season. Whether the team won or lost, they were always wearing a radiant smile.

Wendy Martin shows the anguish of not knowing the outcome of a heated game.

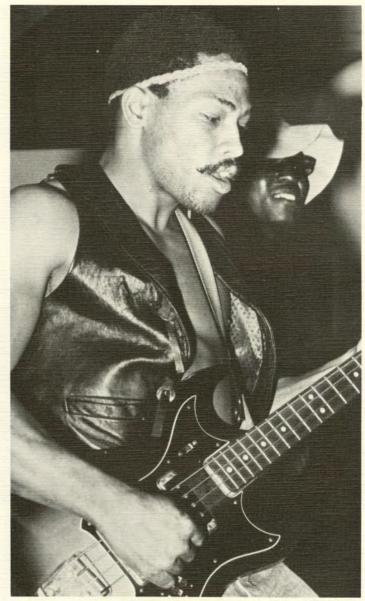

Clockwise from top right hand corner: Wendy Martin, Donna Johnson, Sandy Worden, Sherri Frink, Chris Hand, Dawn Thornton, Lorraine DeNapoli, Kathy Lauten.

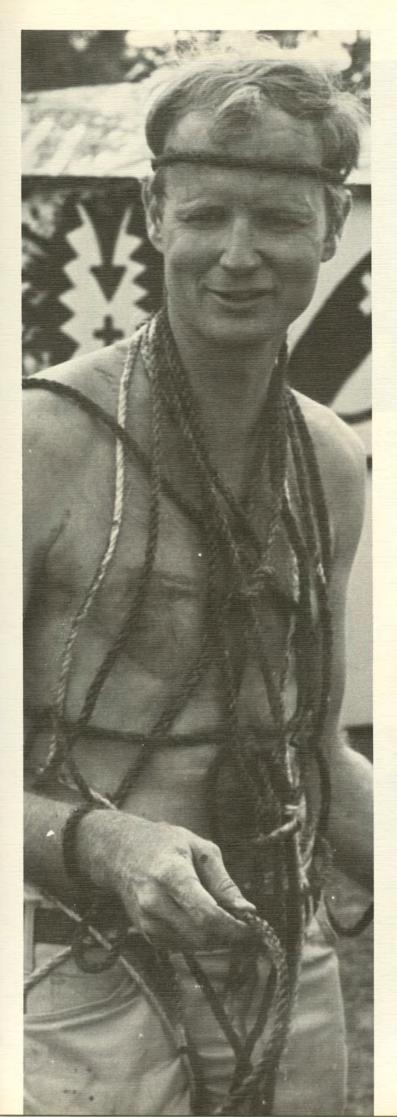

And Where Did You Get That Hair!

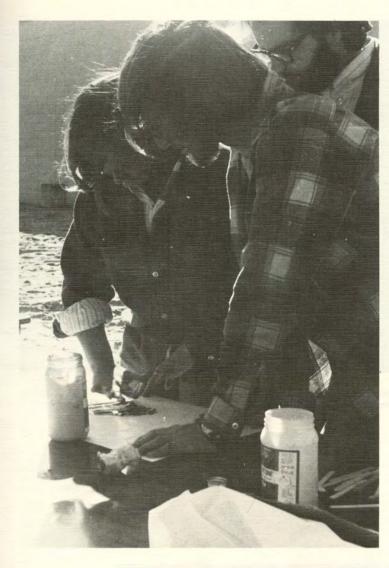

WRA Attempts to Retain Calling Hours; Resident Parking Lot

Resident Supervisor Lynn Schoeneberg discusses WRA activities with Secretary Maryke Loth and President Dorie Baker.

Left to right: JoAnne Seagrave, Janet Vickers, Holly Edminston, Maryke Loth, Dorie Baker, President; Sue Thistle, Jane Starling.

After the formulation of Residence Hall Association failed to evolve, the Women's Residence Association began to provide entertainment and representation for women resident students. The major project of WRA was to attempt to restore calling hours in the dorms after they were removed earlier in the year. They also attempted to regain the resident parking lot. To entertain those resident's on campus over the weeks, WRA sponsored finger painting, bingo and rap sessions with President Millican, Dean Sarchet and Dr. Levensohn.

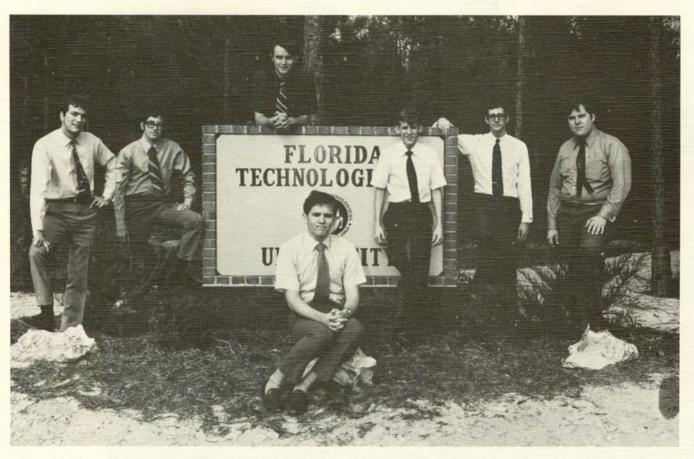

MRA Shows Independence

Men's Resident Association Judicial Board consists of, left to right: Raymond Johnson, Dennis Argo, Lanny McHargue, Ken Kimble, Robert Mundy.

After a change of hands in the beginning of the year, the Men's Residence Association began to provide sources of recreation for men residents. Kite flying, rap sessions, renting of pole lamps and ping pong were all sponsored by MRA. They worked to restore calling hours and extended visitation. The Judicial Board heard various cases brought before them.

Left to right: Martin Hermesch, President; Arthur Hass, Treasurer; David Linton, Vice President; David Andrews, Richard Aronson, Gene Lenfest, Secretary; center front: Mac Balkcom.

Physical Education Majors Acquire New Quarters; Swimming Pool Opens for Spring Use

As the 1970 - 71 school year rolled around, the Physical Education Majors moved into their own building across from the Village Center. Tennis, basketball and handball courts are always found occupied by athletically minded students. In the Spring, the Olympic size swimming pool finally opened to the enjoyment

of all, especially Phys. Ed. Majors who found morning classes in the pool mighty nippy in mid-March. The club held its first annual banquet in March, at the Ramada Inn. The members have also been active in the intramural program on campus.

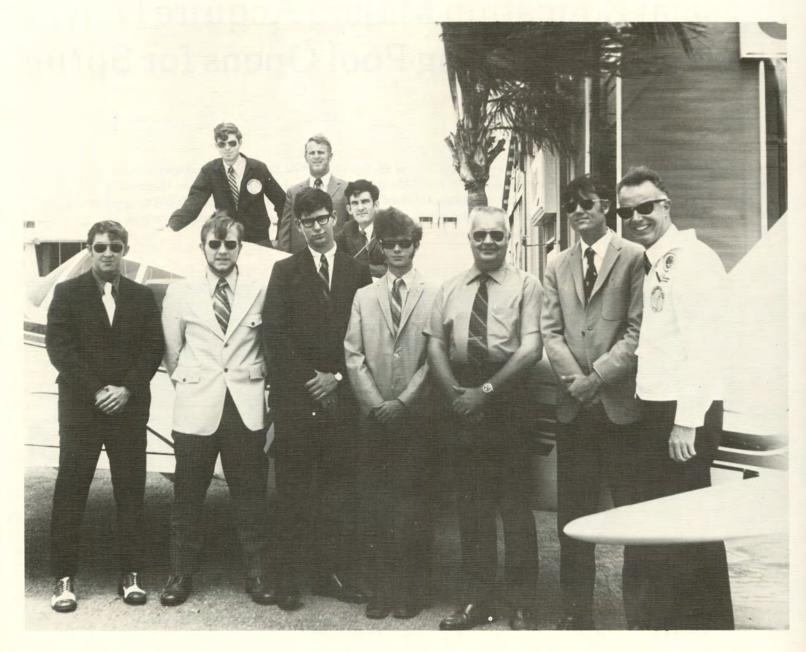

New physical education facilities become second home for physical education majors and a source of relaxation for students.

Fliers Earn Their Wings and Enjoy It

The plane that was taxiing in front of the Village Center during Activity Day could be representative of none other than FTU's Pegasus Pilots. A group that formed to provide the faculty, staff and students of FTU with flight instruction and access to private flying at the most economical rates available. Besides the many hours of flight training, the club has fly-in breakfasts at various parts of the state.

Cleven Murdock, President; Thomas Hartman, Vice President; Jim Powell, Treasurer; Jack Lyden, Secretary; Kenneth Sylvester, Flight Instructor; Pat Flynn, Don Badger, Hank Crouse, Steve Curry, Stanley Deason, Ron Garrett, Dr. David Hernandez, Frank Hucks, Jack Lander, Herb Long, Ray Liles, Mark Ludwig, John Mahaffey, Charles Miller, Marilyn Pearson, Henry Popkin, Enrique Pucci, Gayle Schmidt, David Trimble, Chip Wolfe, Robert Yelverton, Paul Cundiff, Cathie Cundiff, Jim Pearson, Frank Huggins, Teresa Carroll, Warren Chenevert, Russell Coe, Steve Gray, Nelson Hartley, Mary McReynolds, Paul McCormick, Tedd Olkowski, E. J. Pearson, Bill Strandberg, Glenn Rogers, Carl Wood, Roger Williams, Raymond Williams.

Slide Rule Raffle Popular

Slide rule raffle proves very worthwhile.

As other Engineering organizations were developing, the Mechanical Engineering and Aerospace Science Club was preparing to raffle a slide rule to the student body. The idea was received warmly by many engineering students. MEAS also had a sports car display in the lobby of the Engineering Building during Interdisciplinary Week. Monthly dinners entertained members with various guest speakers including Leonard Keller, Chief Engineer of Freon Engine. Projects included building a multi-tube manometer and Pitot rake.

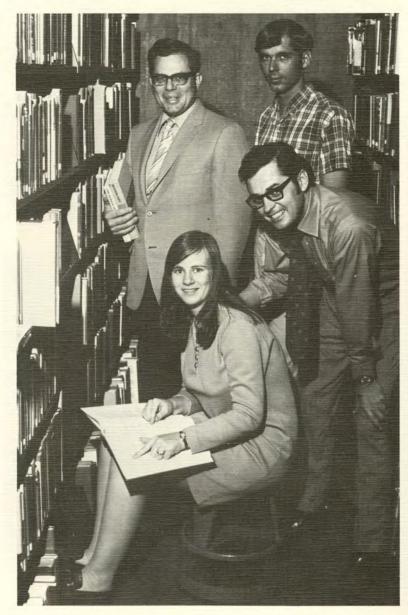

Paul Adams, Pete Bailey, Robert Bender, Joy Bishop, Charles Boyter, Leo Brosche, Jim Carrigan, Roger Chewning, Danny Dougherty, Mike Dunn, Eileen Hallman, Secretary; Joseph Heckelbeck, Dave Jewell, President; Nancy Palmer, Max Partyka, JoAnne Puglisi, Gary Rasponi, Vice President; Les Rostosky, Phil Schilke, Raoul Webb, Marc Williams, Treasurer; Dr. Bruce Nimmo, Advisor.

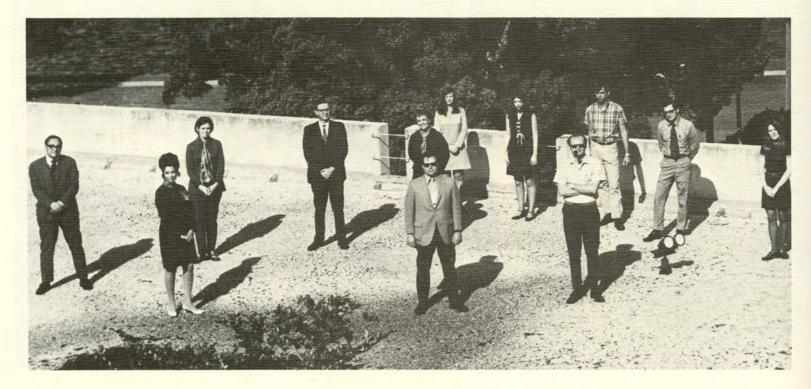

Sociology Club Strives to Promote Group Interaction

Stimulating and maintaining interest in the field of sociology is the major concern of the Sociology Club, along with providing a receptive atmosphere for productive group interaction. It also serves to provide a convenient forum for dissemination and discussion of ideas within sociology.

William Adams, Peggy Albin, Cliff Cook, Barbara Linder, James Makofske, Anabel Pelham, Elizabeth Rose, Larry Seymur, Ann Williams, Sallie Wilson, Department Chairman Dr. Charles N. Unkovic.

Clockwise: Ann Williams, Secretary, Tom Cook, President; James Makofske, Vice President; William Adams, Treasurer.

Project Pick-Up found people of all ages concerned about ecology.

Newman Club Serves Needy

Concern and help toward others aptly describes the projects of the Newman Club. Besides offering tutoring programs, rap sessions and Film Series, the Newman Club has worked with crippled children, migrant workers, and mentally retarded children. Project Pick-up, which involved students and general public in a trash pick-up along Florida Tech Blvd., was also sponsored by the Newman Club.

Director, Father Patrick O'Neill meets with Newman student leaders from Rollins, FTU, Seminole and Valencia.

We Ask You to Pause a Moment and Recall These Words . . .

"Ask not what your country can do for you; ask what you can do for your country."

President John F. Kennedy Inaugural Address — January 1961

"Some men see things as they are and say why, I dream things that never were and say why not."

> Senator Robert F. Kennedy Quoting From George Bernard Shaw

The Young Democrat Clubs of Orange County and Florida Technological University are concerned; they are involved; they support the eighteen-year-old vote and they are working to unite the common causes of our nation.

Civitans Work for Better Community Relations

Over the past year, Collegiate Civitans have worked on projects for the betterment of the community and FTU campus. Primrose School received a new face as the Civitans did much yard work and painting around the buildings. Proceeds from the annual fruitcake sell went to retarded children. Selling of ghost insurance provided funds for under-privileged children. CCC members handled the decorations and coordination of FTU's Homecoming Dance.

Members of CCC do yard work at Primrose School.

Fish Club Finds Peace and Understanding Through Rap Sessions

Lettermen Warm Hearts of Sell-Out Crowd

There were three of them and together they stole the hearts of FTU. The Lettermen came to Orlando, on March 31. Student Government and the Village Center sponsored the concert at the Orlando Municipal Auditorium for a receptive FTU audience.

One of the highlights of the concert was when Tony Butala came into the audience and picked out the "talent" to join him in a folk song. The Lettermen performed a wide variety of music ranging from early 1960's to their latest albums.

After the crowd finally let the group off the stage, comments abounded as to the group's popularity and still ringing in ears were the words "Cherish is the word . . ."

Clockwise from right: Gary Pike, Tony Butala, Jim Pike.

"We Proclaim Life!" "We Proclaim the Rebirth of Man!"

A new dimension in artistic creativity evolved on campus with the self-expression of the "right of life" by students, faculty, staff, expectant mothers and children and children and children. Paints, carriages, cardboard boxes, laughter, love and freedom were the basic ingredients.

Friday, April 16, 1971

We, the slaves of a mechanized society geared to mediocrity, non-creativity and the denial of individuality, proclaim OUR Freedom!

We proclaim life!
We proclaim the rebirth of
man!

We proclaim Creativity, Individuality, and Sky Soaring Imagination as our GODS!

We proclaim that Today, from 11-2 p.m., we shall hold a symbolic march, "The Birth March," to celebrate our freedom from worshiping money, machines, and cybernetics!

We sacredly pledge ourselves to Creativity, Individuality, and Sky Soaring Imagination!

To Life, Laughter, and Love! The Birth March Co-ordinating Committee For Life, Laughter, and Love

CRLANDC (FTU)

This was the year for Greeks. Not only did four of the fraternities on campus colonize but a new fraternity joined the ranks of the Greeks. Alpha kappa Pi was brought on campus during March. Parties were held and the membership was expanded to fifteen brothers. This brought the total to nine fraternities. Colonization also became a part of FTU Greek life. By the month of April, colonies were formed of Alpha Tau Omega, Kappa Suma Lambda Chi Alpha and Tau Kappa Epsilon with the remaining fraternities. Fooking eagerly toward that big step in their growth.

But not to be outdone, the four sorolities on campus were busy making preparations for colonization to national sororities by the end of Spring Quarter.

The Greeks came into the spotlight many times this year, working on service projects, Greek Week, rush activities, Homecoming and good representation throughout the community and at all major sporting events.

The Interfraternity Council is the supervising and governing body for all men's social fraternities chartered by Florida Technological University. The council functions under the direction of the division of student affairs and in accordance with university policy.

Its specific purposes are:

To establish and administer rules governing rushing, pledging, initiation and general deportment of fraternities.

To encourage scholastic achievement, greater cooperation and harmony among its members.

To promote the best interest of Florida Technological University.

Lambda Chi Alpha

Hambda Chi Alpha

The Lambda Chi Alpha Fraternity sets as its supreme goal, contribution in the largest measure possible to the pre-eminence of truth and justice and the well-being of human kind. Toward this end, it is the aim of Lambda Chi Alpha to develop in its members the highest standards and acts of honor, chivalry, unselfishness, tolerance and industry and loyalty to the principles of the Christian religion, the laws and established moral code of the nation, the democratic principles of the American educational system and the laws, traditions, standards, and practices of this Fraternity. It is a fundamental principle of this Fraternity that no finer means is offered for the achievement of these aims than the brotherly association of men with similar tastes and inclinations.

Almost from the day Florida Tech opened its doors in the fall of 1968, local fraternities were established with the eventual goal of national affiliation. Among these was Chi Alpha Fraternity, founded November 15, 1968, and the culmination of its efforts occurred on January 31, 1971 with the initiation of 37 members as a colony by an outstanding degree team from the Stetson University Chapter.

The next goal for the Florida Tech Colony is the attainment of a charter, and chapter status within the forthcoming year.

Lambda Epsilon Chapter Chartered April 30, 1971 Florida Technological University Orlando, Florida

"The Star and Cresent shall not be worn by every man, but only by him who is worthy to wear it. He must be a gentleman, . . . a man of honor and courage . . . a man of zeal, yet humble . . . an intelligent man . . . a man of truth . . . one who tempers action with wisdom and, above all else, one who walks in the light of God."

To Our Guests:

Welcome, brother.

Here, the society of a friend and a brother is held in very high esteem.

So, sit long and deep. If you hunger, partake freely. If you thirst, quench that thirst. If you are weary, sleep 'til noon. Do whatever seems good to you.

And when you must continue your journey, we will be sorry. But go forth remembering how good a thing our Order is, and tell others about it.

And be grateful to Him that gives His creatures so great a pleasure as brotherhood.

Phi Alpha Epsilon

Phi Alpha Epsilon Fraternity continued to demonstrate during the 1970-71 year, the principles of brotherhood, charity and good fellowship upon which the fraternity was founded.

While working toward the hallowed goal of becoming a chapter collegiate of Sigma Alpha Epsilon, the brothers of Phi Alpha Epsilon have learned the values and ultimate achievement of becoming the True Gentleman.

The addition of new pledges has served to strengthen the brotherhood in spirit and in fellowship. Under the direction of past Pledge Trainer Mike Malone and current Pledge Trainer Bob Cooper, the year turned out the finest pledge classes in the University.

On the field of intramural athletics Phi Alpha Epsilon showed its colors by winning the Interfraternity Council Athletic Award for the 1970 year, under the direction of Athletic Director, Mike Malone whose services will be sorely missed.

To be a member of Phi Alpha Epsilon Fraternity is an honor every brother cherishes. To be a brother of Phi Alpha Epsilon is to assume a position of esteem and leadership. To graduate a brother is to step into the outside world well prepared and high in character. As Phi Alpha Epsilon continues on the long and detailed road to becoming a chapter of Sigma Alpha Epsilon, the brothers show to the world the values deeply ingrained in each . . . virtue, honesty and patience.

Business Greeks

Phi Beta Lambda

Building business leaders and business educators is the "business" of Phi Beta Lambda. But Phi Beta Lambda at FTU proves that a business fraternity can be enjoyable as well as educational. There is a unity of spirit and effort in everything Phi Beta Lambda members have accomplished since the organization was chartered in 1969. This overwhelming desire to build individual leaders in an atmosphere of togetherness is the singular strength of Phi Beta Lambda's varied and talented membership.

Aelta Sigma Pi

Delta Sigma Pi is a professional fraternity organized to foster the study of business in the university; to encourage scholarship, social activity and the association of students for their mutual advancement by research and practice; to promote closer affiliation between the commercial world and students of commerce, and to further a higher standard of commercial ethics and culture and the civic and commercial welfare of the community.

Santry Wins

Eleven must be Frank Santry's number. Last year, Santry lost the Student Government Presidential election to James Stringer by eleven votes. This year, after a spirited campaign which saw seven presidential candidates and three vice presidential candidates battling it out to the wire, Santry emerged victorious by eleven votes. Zero Zimmerman placed a close second.

Santry's running mate, Charles Simpson, was elected vice president. Not far behind, Patty MacKown trailed Simpson for the second spot on the VP ticket.

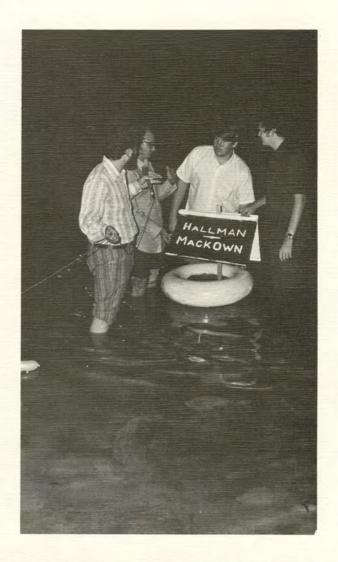

With the eyes of the adult world watching to see if the recently liberated 18-year-old vote would care enough to cast ballots on campus elections, the FTU voter turnout was fair, but far from encouraging. A total of 42.5 percent of those eligible voted, slightly more than last year.

The campaigns, though, were far more professional than last year. Santry and Simpson plastered the campus with posters that would make ad agencies proud. Gary Hallman, second runner-up had a lighted, blinking sign on Highway 50 to lure voters. Zimmerman posted banners that artistically proclaimed, "0 is the Beginning." Fred Daniels passed out books of matches with his name on them.

And the general push for a big vote was the campaign of many groups on campus. An old Volkswagen near the entrance to campus proclaimed, "GIVE A DAMN, VOTE". It was sponsored by the Pegasus PR Club.

WFTU Radio and Television provided up-to-the-moment news coverage of the campaigns and the elections, interviewing the winners seconds after the results were known.

But, the final, agonizing struggle to get votes was left to the candidates themselves. They were out on campus, highways, everywhere. After the votes were tabulated from the Orange County voting machines, used for the first time this year, it was Santry and Simpson, sunburned and weary, but winners. Both facing a challenging year as leaders of an emerging and demanding electorate. Both said they were ready for the job.

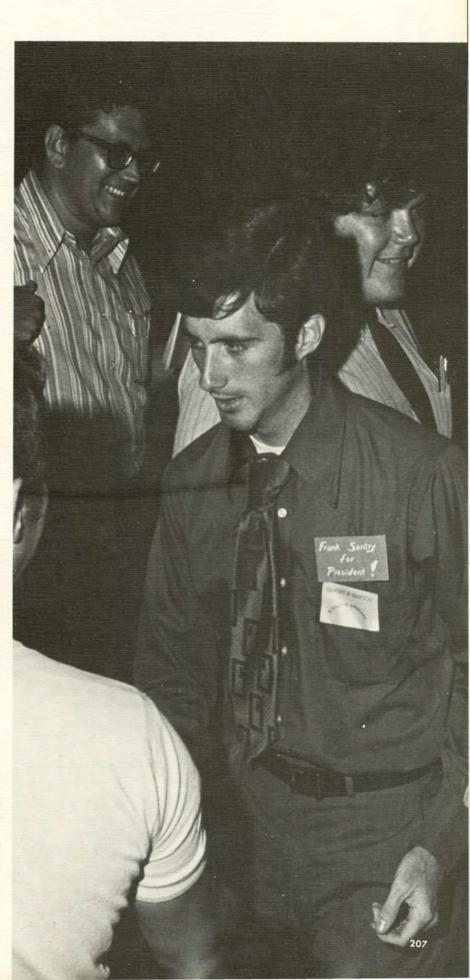

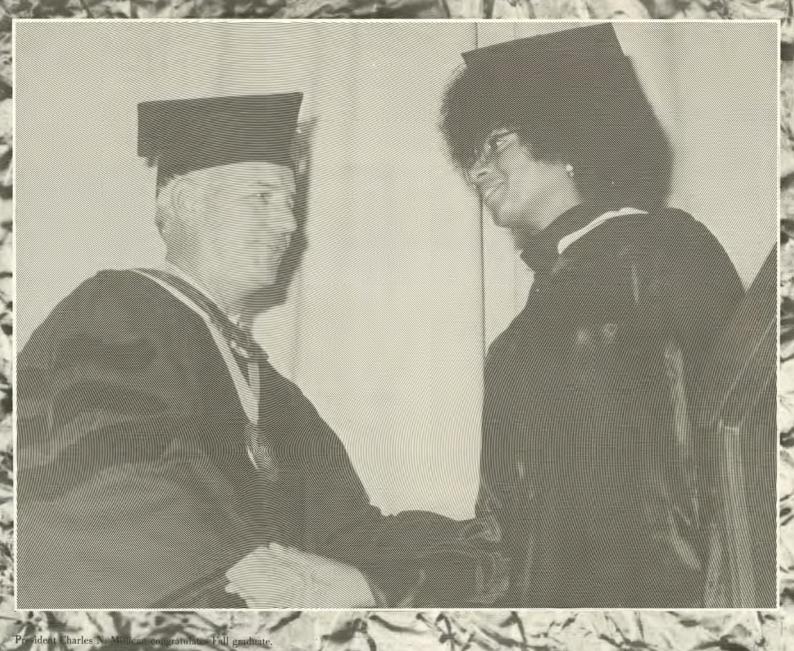

"That Same Eleven"

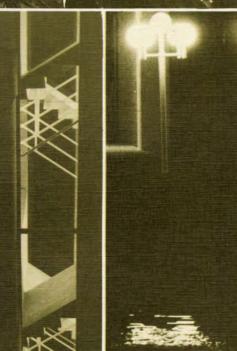

Seniors prepare to receive graduation honors.

Work Isn't Over For FTU Grads

ORLANDO, FLORIDA (FTU)

Education is the conversion of ideas into practical usage which can be meaningful and advantageous when used in the right situation. But it takes time to comprehend ideas, to develop them into fitted patterns. For four years we have been absorbing ideas, theories, and formulas. What do we have left after the numbers and facts? Are the questions all answered? What is to become of us—of ME?

The hard things, big things: war, poverty, black vs. white — will the theories answer these problems? Our education has only begun the ideas. Our eyes bright, we must go and learn more. Learn to help, lend, build, govern, become involved.

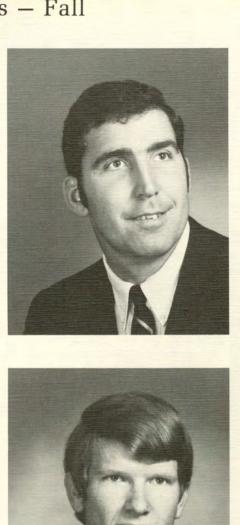

ern, become involved.

Now we must talk with our hands, our eyes. We must listen with our entire being. We are men. Tomorrow the world will be ours. REALITY; LIFE, DEATH. What will we do with it—there is so much to do.

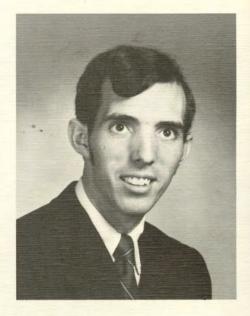

We have helped build a university of 5,000 now we must build a world of millions for us, for our children. The time to do this is short. It comes and goes quickly, like a stranger in the night. And so much time has already fled. Yesterday is gone, today will soon be over and tomorrow we must build with what we have learned today. Build by looking forward and outward, yet never forgetting our heritage, our creation.

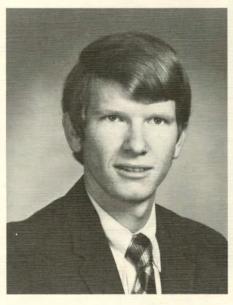

Tomorrow, with diploma in hand and tassel on the rear view mirror we will begin. At first leaning, stumbling, and falling but soon standing upright amoung our fellow men—still leaning, still asking, but most important achieving.

Graduate Degrees Awarded

Three graduate students received the first Master's degrees awarded by Florida Technological University at the Winter Park High School Auditorium. Mildred N. Warren, Georginia McEwen, and C. Gilbert Rowe all received their master's degrees in Elementary Education.

The Master's program was initiated at the University in the Fall of 1969.

Page 228, Top right: Mildred N. Warren. Bottom: Georginia McEwen receives her Master's Hood.

"The Builders"

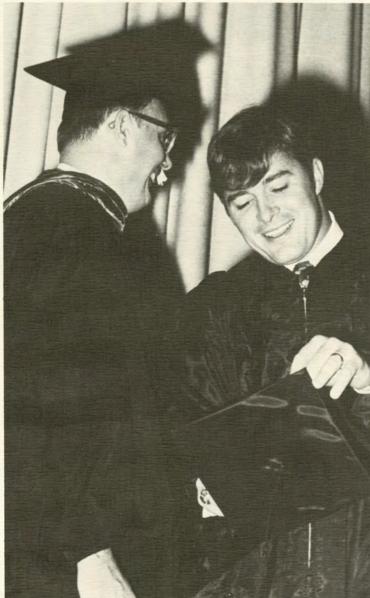

All are architects of Fate,
Working in these walls of time;
Some with massive deeds great,
Some with ornaments of rhyme.

Nothing useless is or low; Each thing in its place is best; And what seems but idle show Strengthens and supports the rest.

Let us do our work well
Both the unseen and the seen;
Make the house where gods may dwell
Beautiful, entire, and clean.

Else our lives are incomplete, Standing in these walls of Time Broken stairways, where the feet Stumble, as they seek to climb.

Build today, then, strong and sure, With a firm and ample base, And ascending and secure Shall tomorrow find its place.

Thus alone can we attain

To those turrets, where the eye
Sees the world as one vast plain,
And one boundless reach of sky.

"The Builders" Henry Wadsworth Longfellow

City Beautiful Blossoms

years have brought an e of growth to the ot only has the popula-but many worldwide chosen to locate their a Central Florida. Be-

Orlando has been named fifth in the national growth rate.

As with any growing city, Orlando's transportation system had to grow Airways, milways, bus facilities and an extensive system of highways all work together to make Orlando the transportation center of the state.

This phenomenal rate of growth is, by no means, coming to an end The U.S. Bureau of Public Boads has predicted an increase of 340 percent in Central Florida's population by the year 2000. 2000.

U - An Integral Part of Growing Orlando

Amid all of this growth Central Florida realized its need for educational facilities. Florida Technological University, one of the state's newest public universities, was founded in 1963 and located ten miles east of Orlando. The multi-million dollar campus is grown with G. pus is growing with Central Florida; in fact Gov. Kirk once predicted that FTU would some day equal California Institute of Technology and Massachuset is Institute of Technology

Why in the world are marine biologists skindiving at Florida Power?

Florida Power has welcomed the placement of two State of Florida marine biologists at our Crystal River Plant to study the effects of "thermal additions" on plant and marine life.

These two biologists are not employees of Florida Power, nor associated in any way with our company. They are employees of the Florida Bureau of Marine Science and Technology. Florida Power welcomes their presence at our plant because we want only the most authoritative and independent research in connection with our efforts to prevent water pollution of any kind. This is only one part of our comprehensive Environmental Monitoring Program, part of which is to study the ecological effects of warm-water discharge. The effort is in close cooperation with the Florida Air and Water Pollution Control Commission.

At Florida Power... we search for problems before they happen. That's why our record is good in combating pollution... and will remain so.

The Folks at Florida Power.

- helping build better communities.

You've seen her before.
Across the face of America.
Across the table from you.
She could be your girl, your sister, your daughter.
She's a natural.
And so's that cold pepsi in her hand. Pepsi belongs, whether you're sharing good times with friends . . . or a quiet moment alone.
Pepsi-Cola . . . it's got a lot to give.

You've got a lot to live.

Pepsi's got a lot to give.

 Guess Who
 .28

Now is the hour of leaving.
We stand between a place that gave us only questions and a world where vague memory-dreams touch our minds, a world which calls to us to put the pieces together into a possibility, into a maybe-answer for all questions.

'70 Aegean, University of South Florida

In memory of

Lester A. Brown Robert N. Fouts Glenn M. McCutcheon Harvey Rexroad The reaction of an editor to the task of expressing his thoughts on the performance and completion of his objective can be likened to that of an elderly gentleman writing his will or a basketball coach excitedly detailing his player's qualifications and successes.

To capsule the good aspects (and bad) of the complete publication of a yearbook is a nearly impossible undertaking, but a must. I'll concern myself with the best.

It is necessary, to gain the full meaning and representation of a yearbook, that the reader consider what has gone into its publication and what it represents. The making of a yearbook is an all-disciplinary encompassing task. Simply, as any undertaking should be, the publication process is an experience. Often frustrating, tiresome, difficult but always rewarding.

The twenty member staff has attained and surpassed its original objective in the completion of *PEGASUS* 1971. Meeting the deadlines is an exciting challenge. Most will either agree or loudly comment otherwise. But the important thing is the work was completed promptly

and correctly.

Susan Conner, my associate editor, unquestionably deserves the most credit for the quality of *PEGASUS* '71. Her persistance for perfection, tremendous interest and unlimited spectrum of ideas made her presence most valuable.

Freshman Sharon Warren, as business manager, instituted some far reaching reforms which have already proven to be workable — an asset not only to the staff but to the

subscribers.

Patty Gray, Maryke Loth, David Waterman and JoAnne Puglisi also deserve an extra hand for their work.

If there were any indispensible staff members, photographers Chuck Seithel and Randy Drake qualified. Their continued patience, willingness to work long hours and

constant aim for perfection made them very valuable assets.

To mention all of those who are responsible for this second edition of *PEGASUS* is unrealistic. There are too many. The credit page speaks for itself. Except for one. Todd Persons, as Director of Publications, gave the entire staff needed encouragement, invaluable suggestions, guidance and a keen interest in what we were trying to accomplish. To him goes my heartfelt thanks.

Ron Page
